**Active Implementation of the European  
Directive on Energy Efficiency:  
the AID-EE project**

***Main objectives***

- Reconstruct and analyze the implementation process of at least 20 policy instruments implemented in and outside the EU-25 with the purpose to identify and explain key factors behind success and failure of energy efficiency policies
- Actively disseminate knowledge on implementation, monitoring and evaluation of policy instruments

***Project web site: [www.aid-ee.org](http://www.aid-ee.org)***

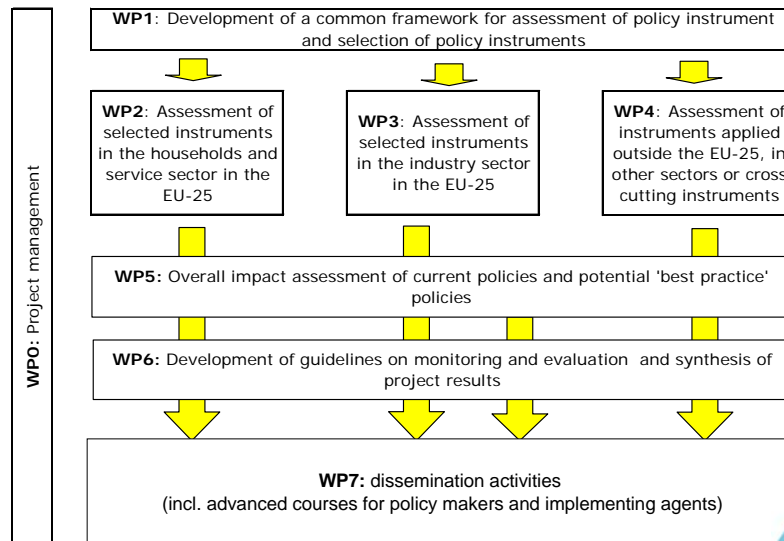

Supported by  
Intelligent Energy Europe

## Project parties

- Ecofys BV, the Netherlands (coordinator)
- Lund University, Sweden
- Wuppertal institute, Germany
- eERG - Politecnico di Milano, Italy

## AID-EE Work programme

Duration: January 2005- December 2006

Supported by  
Intelligent Energy  Europe

## Stepwise towards effective European energy efficiency policy portfolios involving white certificates: the **EuroWhiteCert** project

### **Main objectives**

- Evaluate the concept and existing applications of white certificate schemes regarding the potential to enhance energy efficiency and sustainability policies of the EU member states.
- test the white certificate concept in practice through a pilot action.
- give recommendations for the ecologically and economically most beneficial design and introduction of white certificates and a possible integration with TGC and cogeneration certificate schemes, as well with ET, JI and CDM schemes

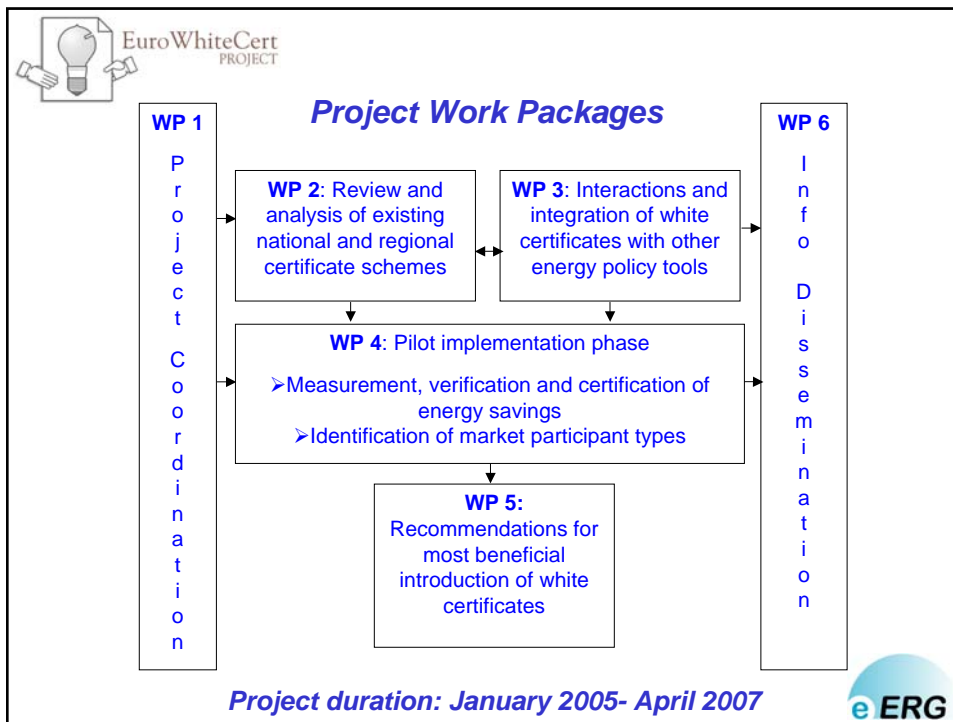

Project web site: [www.eurowhitecert.org](http://www.eurowhitecert.org)

### **Project parties**

- Politecnico di Milano, Dipartimento di Energetica (eERG) -IT (coordinator)
- Energy for Sustainable Development Ltd (ESD) - UK
- Ecofys b.v. – NL
- Zentrum für Sonnenenergie- und Wasserstoff-Forschung Baden-Württemberg (ZSW) – GE
- The Government Institute for Economic Research (VATT)– FI
- Lund Universitet (ULUND) - SU
- ARMINES – FR
- Center for Energy Efficiency (EnEffect) - BG
- Centre for Renewable Energy Sources (CRES)– GR
- ISR-University of Coimbra (ISR-UC) - PT
- Energieverwertungsagentur, the Austrian Energy Agency (E.V.A.) - AT
- Agenzia per la Protezione dell'Ambiente e per i Servizi Tecnici (APAT) - IT
- Agence De l'Environnement et de la Maîtrise de l'Energie (ADEME) - FR
- Central European University (CEU) - HU
- ESD Bulgaria Ltd - BG

**Passive-On project**

Supported by  
 Intelligent Energy Europe

## Marketable Passive Homes for Winter and Summer Comfort: the **Passive-on** project

### Main objectives

- For architects and building designers the project will provide Design Guidelines and a Software Design Tool for developing cost effective all season Passive Houses in both heating load and cooling load climates.
- For Policy makers the project will provide a Scope and Strategy Report, examining barriers and solutions for EU, national and local governments which can lead to more wide scale development of Passive Houses.
- More generally, Passive-On will seek to disseminate the concept of Passive Houses in project partner countries

*Project duration: January 2005- September 2007*

*Project web site: [www.passive-on.org](http://www.passive-on.org)*

## *Project parties*

- eERG Politecnico di Milano, Italy (coordinator)
- International Conseil Énergie (ICE), France
- Passivhaus Institut, Germany
- Natural Works e Instituto Nacional de Engenharia, Tecnologia e Inovação (INETI), Portugal
- Asociación de Investigación y Cooperación Industrial de Andalucía (AICIA), Spain
- School of the Built Environment, Nottingham University, United Kingdom
