National source for financing energy efficiency and renewable energy projects

BERZOI Simion – Energy Efficiency Expert

November 4-6, Hammamet
## Legal Framework

- **Renewable Energy Law**
  - No. 160 of 12.07.2007

- **Law on Energy Efficiency**
  - No. 142 of 02.07.2010

- **Energy Strategy 2030**
  - Government Decision No. 102 of 05.02.2013

- **National Energy Efficiency Program 2012-2020**
  - GD No. 833 on 10.11.2010

  - GD No. 113 on 07.02.2013

- **Methodology for calculation of RES electricity and biofuels tariff**
  - NARE Decision No. 321 of 22.01.2009

- **Regulation on Organization and Operation of the Energy Efficiency Fund**
  - GD No. 401 on 12.06.2012
The Energy Efficiency Fund (EEF) has been set up as an independent and autonomous legal entity of public interest.

What EEF does

The Fund provides financial support for the projects aiming at:

1. promoting energy efficiency and implementation of renewable energy sources;
2. reduction of energy consumption and greenhouse gases emissions.
The Fund provides the following financial instruments for energy efficiency and renewable energy sources projects and programs:

- Grants
- Partial credit guarantees
- Loans
- Leasing
Financial support can be provided to the companies and institutions representing the following national economy sectors:

- **Energy transformation**
- **Transportation**
- **Industry**
- **Construction**
- **Public services**
Eligible measures

- Installation of solar collectors
- Installation of biomass boilers
- Purchase of equipment, machinery and tools for industrial enterprises
- Installation of gas boilers
- Improvement of heating distribution systems
Eligible measures

- Thermal insulation of exterior walls
- Replacement of exterior windows and doors
- Thermal insulation of roofs and ceilings
- Energy Management Control
- Other
The Fund provides the financial support for the projects that meet the following eligibility criteria:

- Measurable energy savings – at least 1/3 of the project’s benefits;
- The own contribution - at least 20%;
- The payback period - 7 years (EE projects);
- The payback period - 15 years (RES projects);
Facts and figures

Energy Efficiency Fund

Submission
- During Call of Proposal

Evaluation
- According to GD nr. 401, 12.06.2012

Approved
- 87 projects - Call of Proposal nr. 1;
- Total costs – around 10 million Euro.

Planned for valorification – year 2014
- Around 24 million euro
Projects under implementation

Beneficiary:
City Hall Ungheni

Objects proposed for financing:
High School „Gheorghe Asachi” city Ungheni

Total project cost:
271 400 euro

Fund’s contribution:
162 200 euro

Accepted measures:
- Replacement of exterior windows and doors;
- Thermal insulation of exterior walls;
- Installation of gas boiler.
Projects under implementation

Beneficiary: The District Council Drochia

Objects proposed for financing: District Hospital Drochia P.H.A.

Total project cost: 147,300 euro

Fund’s contribution: 117,900 euro

Accepted measures: Replacement of exterior windows and doors
Projects under implementation

Beneficiary:
Hall Rusești Noi, district Ialoveni

Objects proposed for financing:
High School Rusestii Noi (primary classes)

Total project cost:
29 200 euro

Fund’s contribution:
23 300 euro

Accepted measures:
- Replacement of exterior windows and doors;
- Thermal insulation of exterior walls.
Projects under implementation

Beneficiary: The District Council Orhei

Objects proposed for financing: Center for Health Orhei P.H.A.

Total project cost: 88 700 euro

Fund’s contribution: 71 000 euro

Accepted measures:
- Replacement of exterior windows and doors;
- Thermal insulation of exterior walls;
- Thermal insulation of roofs.

Center for Health Orhei P.H.A.
