Activities of the Ministry related to stimulating investment in RES

Predrag Milanovic
Advisor in the Section of RES
Legislative*

- Energy Law
- Law on Ratification of the Treaty Establishing the Energy Community
- Decree on Conditions and Procedure for Acquiring the Status of Privileged Power Producers
- Decree on Incentive Measures for Privileged Power Producers
- Energy sector Development Strategy of the Republic of Serbia by 2015 *(the new in preparation for period by 2025)*
- National Renewable Energy Action Plan
- Models of power purchase agreements on total amount of power generated in RES power plants

* Available in English at:  [http://www.mre.gov.rs](http://www.mre.gov.rs)
National Renewable Energy Action Plan (NREAP)

Adopted by the Government on 4th June 2013
National Renewable Energy Action Plan (NREAP)

- NREAP made in accordance with the form prescribed by Directive 2009/28/EC
- NREAP shows the policy framework and determines the path in the field of RES till 2020
- NREAP main objective is to stimulate and encourage investment in green energy
- Set an ambitious target up to 2020
  - 27% RES in GFEC (10% RES in transport)
Incentives for privileged power producers

- Incentive package for the privileged power producers PPP*, includes the right to:
  - Acquire temporary status of PPP for investors in solar and wind power plants
  - Agreement with the public power supplier for purchase of power for 12 years
  - Privileged price prescribed by the Decree
  - The release of the balance responsibilities
  - Obligation of the Public Supplier to purchase all produced power
  - Annually correction rates in accordance to inflation of Euro
  - After privileged period, obligation of the Public Supplier to purchase all produced power in accordance with actual market condition

* PPP - Privileged power producer
Feed-in Tariff System

- A new regulation on the measures and method of subsidizing producers of electricity from RES (Feed-in Tariff) in power from 2nd February 2013

- Two most important regulations for investors are:
  - Decree on the conditions and procedure for acquiring the status of privileged power producers PPP*
  - Decree on Incentives for privileged energy

Available at:
http://www.mre.gov.rs/

2) Improvement of legal provisions based on the practice of applying

- **RES - intentions:**
  - Introduction of Preliminary Status of Privileged Power Producers for all kind of RES;
  - Concept of Guarantee of Origin;
Projects to encourage the development of RES in 2013

"Encouraging the use of RES - biomass market development"

- The Ministry has prepared a draft of the financing agreement with KfW (German Development Bank), which was adopted by the Government of the Republic of Serbia;
- The approximate budget for this program is €108.3 million;
- Ministry is involved in a plan to develop a common KfW - GIZ program utilization of biomass, for the financial support to heat power plants and cogeneration facilities for the fuel switch to the biomass.
"Reducing Barriers to Accelerate the Development of Biomass Markets in Serbia”

- Project should be co-financed by GEF (Global Environmental Fund) with amount of $2.8 million and realised by UNDP as implementing agency

- Expected results:
  - Realisation of four demonstration projects at commercial base (construction and put in operation of biomass plants);
  - Strengthening the institutional capacity and regulatory framework for biomass use;
  - Capacity buildings of entities in biomass activities;
  - Arising public awareness about importance of biomass energy use.
Guidebooks for investors

- On the website of the Ministry of Energy development and environmental protection can be downloaded guidebooks for investors:
  - Construction of solar heating systems
  - Construction of small hydro-power plants
  - Construction of solar power plants
  - Construction of wind farms
  - Construction of biomass plants
  - Construction of hydro-geothermal plants
