

EuroGeoSource Project Update

**“EU Information and Policy Support System for
Sustainable Supply of Energy and Mineral Resources
to Europe”**

**Charlotte Griffiths, Secretary
Expert Group on Resource Classification**

Project Details

- **Project objective:** to develop a web-based information system that supports energy and minerals planning in Europe. Stakeholders and their needs at centre of approach (by involving project beneficiaries, as well as by extensively interviewing major players in energy and mineral resources sectors in EU, incl. relevant EC DGs, national ministries, and industry)
- **Consortium:** 10 geological surveys, 2 advanced research institutes + 1 software development company
- **Project Co-ordinator:** TNO Built Environment and Geosciences, The Netherlands
- **Project Advisory Board:** UNECE EGRC member
- **Budget:** Euros 2.592 million
- **Timeline:** 3 years (Feb 2010- Jan 2013)

Project Update

- **First kick-off meeting: 15-16 April 2010 at TNO, the Netherlands – focus on how to achieve project goals and deliverables.**
- **Questionnaires being prepared to (i) define user requirements for the EuroGeoSource System (WP2) and (ii) create an overview of organizational and political aspects of the collection, storage and dissemination of energy and minerals data (WP3).**
- **First project results to be discussed at workshop in Slovenia, end June. EGRC invited to attend.**
