UKRAINE-CHINA WORKSHOP ON MINERAL RESOURCES AND RESERVES CLASSIFICATION: STATE AND PROSPECTS

April 21-23, 2017, Kyiv, Ukraine

GEORGI RUDKO
Doctor of Geology and Mineralogy Sciences, Doctor of Geography Sciences, Doctor of Technical Sciences, Professor, Chairman of SCMR

EIGHTH SESSION OF THE UNECE EXPERT GROUP ON RESOURCE CLASSIFICATION
25-28 April 2017, Palais des Nations, Geneva
WORKSHOP THEME

Mineral Resources and Reserves Classifications in Ukraine and China. Mapping to UNFC-2009 and other International Mineral Resources and Reserves Management Systems
CONSIDERATION OF THE DRAFT MEMORANDUM OF COMMONWEALTH AND COOPERATION DURING THE UKRAINE-CHINA WORKSHOP
The Chinese Delegation has been familiarized with scientific, methodological and educational publications of the State Commission of Ukraine on Mineral Resources including those translated into English and Chinese. As a result of publications discussion, a decision was adopted on initiation a joint Ukraine-China project on the adaptation of Mineral Reserves and Resources Classifications of Ukraine and China to the UNFC-2009 in order to provide efficient resource management.
Signing of the Memorandum of Commonwealth and Cooperation between the State Commission of Ukraine on Mineral Resources and Mineral Resources and Reserves Evaluation Center of Ministry of Land and Resources of China
On the Day 1 of the Workshop the main issues of the Resources Classification Systems of Ukraine and China were discussed.

In the context of Resources Classification issues in Ukraine and China, a draft Memorandum of Commonwealth and Cooperation between the State Commission of Ukraine on Mineral Resources and Mineral Resources and Reserves Evaluation Center of Ministry of Land and Resources of China has been developed.
GREETINGS FROM ALEKSEI BOYARKIN
Acting Head of the State Service of Geology and Mineral Resources of Ukraine
SCIENTIFIC-PRACTICAL WORKSHOP ON THE MAIN ISSUES OF MAPPING NATIONAL RESOURCES CLASSIFICATIONS OF UKRAINE AND CHINA WITH UNFC-2009

Zhang Dawei

Director General
Mineral Resources and Reserves Evaluation Center, Ministry of Land and Resources of China

Subject of the report:
CHINA MINERAL RESOURCES AND RESERVES MANAGEMENT
Georgii Rudko

Chairman of
State Commission of Ukraine on Mineral Resources

Subject of the report:
STATE COMMISSION OF UKRAINE ON MINERAL RESOURCES: STATUS AND STRUCTURE
SCIENTIFIC-PRACTICAL WORKSHOP ON THE MAIN ISSUES OF MAPPING NATIONAL RESOURCES CLASSIFICATIONS OF UKRAINE AND CHINA WITH UNFC-2009

Li Jian
Vice Director of Division
Mineral Resources and Reserves Evaluation Center, Ministry of Land and Resources of China

Subject of the report:
Comparison between China Solid Mineral Resources and Reserves Classification System with International Ones

Valentyn Hryhil
Deputy Chairman
State Commission of Ukraine on Mineral Resources

Subject of the report:
Mineral Reserves and Resources Classification of the State Subsoil Fund of Ukraine in Comparison with the International Classification Systems for Mineral Reserves and Resources
Yang Hua
Deputy Director
Research Institute of Petroleum Exploration and Development, PetroChina

Subject of the report:
Global Petroleum Resources Management Systems and Mapping Approaches

V.I. Lovyniukov
Chief of the Administration for Ore & Combustible Mineral Resources
State Commission of Ukraine on Mineral Resources

Subject of the report:
Ukrainian Resources Classification as a tool for commercial evaluation of mineral deposits according to the international standards
PARTICIPANTS OF UKRAINE–CHINA WORKSHOP
CONCLUSIONS

Summarizing the results of Ukraine–China Workshop on Resources and Reserves Classification it is advisable to state the following:

1) The Classification of China is significantly adapted to UNFC-2009 and is used as a universal classification for the evaluation of all types of mineral deposits. Meanwhile, oil and gas and solid minerals are considered separately.

2) The Classification of Ukraine is fully adapted to UNFC-2009 and is applied as an universal tool for classification of all types of mineral deposits (oil and gas, solid minerals, groundwater and thermal waters, etc.).

CONCLUSIONS

Summarizing the results of Ukraine–China Workshop on Resources and Reserves Classification it is advisable to state the following:

4) The Chinese Delegates invited the Representatives of the State Commission of Ukraine on Mineral Resources to visit Heilongjiang Province in the north of China to get acquainted with the work of the Mineral Resources and Reserves Evaluation Center of Heilongjiang Province of the Ministry of Land and Resources of China.

5) The Chinese and Ukrainian Delegates agreed to initiate a joint Ukraine-China project (a Monograph) on the application of the UNFC-2009 in China and Ukraine using specific mineral deposits.

6) The Ukrainian side thanks the Chinese colleagues for successful cooperation and hopes to follow up.
THANK YOU FOR ATTENTION!
