Guidance for the Application of the UNFC for Mineral Resources in Finland, Norway, and Sweden
UNFC Guidance for Mineral Resources in Finland, Norway, and Sweden

Presentation to the UNECE Expert Group on Resource Classification at its 9th Session, Geneva, April 2018

Erika Ingvald
Head of Division, Mineral information and Mining Industry, Geological Survey of Sweden
Purpose of this Guidance
MOVING BEYOND CLASSIFICATION TOWARDS MANAGING RESOURCES SUSTAINABLY

- To help preparers and users of reserves and resources with numbers used in
  - Resource policy and strategy formulation,
  - Government resource management,
  - Industry business process management, and
  - Capital allocation

- No changes to the UNFC
- No changes to the various regulatory requirements set by Governments or accounting standard setters
Activities since April 2017

- Published for public comment
- Case studies in progress
- WPs in different EU-projects
- Swedish Government commission w Swedish EPA
- Training and workshop activities
  - Stavanger
  - Geneva
- Presentations @ eg
  - Fennoscandian Mining and Exploration Conference, FEM, Levi, Finland
  - EIT Raw Materials Week in Brussels
  - WRF in Geneva
Coherence between the value chains of Government and industry for an effective industrial ecosystem
UNFC adds the economic and social dimension and holds non-sales production for waste management – residual management.
