Noting that findings concerning specific Parties found to be in non-compliance are dealt with in decisions II/5a, b and c;

1. Undertakes to review the implementation of the measures with respect to specific Parties referred to in decisions II/5a, b and c at its third ordinary meeting, as well as the more general recommendations contained in the following paragraphs, and with this in mind, requests
the Committee to examine these matters in advance of that meeting and to describe the progress made in its report;

4. Recommends, on the basis of the information derived from the reporting by Parties on their implementation of the Convention and the findings and recommendations of the Committee (ECE/MP.PP/2005/13, paras. 36-38), that Parties should keep under review their legal and institutional frameworks as well as their practical experience with implementing various provisions of the Convention, taking into account their obligations under article 3, paragraph 1;

**Working methods of the Committee**

Resources

10. Also takes note of the information contained in the national implementation reports and the conclusions of the Compliance Committee (ECE/MP.PP/2005/13, para. 42) indicating that a lack of resources sometimes affects the implementation of and compliance with the Convention’s requirements, and invites all Parties and other interested States and organizations in a position to do so to provide countries with economies in transition with financial and technical assistance in the form of capacity-building aimed at improving implementation and compliance in such cases;

11. Notes the significant workload for both the secretariat and the Committee associated with servicing the compliance mechanism and in particular the processing of communications from the public, and urges that sufficient resources should be made available to enable the mechanism to function effectively; and
