

**Decision 2008/2****Compliance by Norway with its obligations under the 1991 Protocol  
Concerning the Control of Emissions of Volatile Organic Compounds  
or Their Transboundary Fluxes (ref. 1/01)**

*The Executive Body,*

*Acting* under paragraph 11 of the structure and functions of the Implementation Committee (Executive Body decision 2006/2),

1. *Recalls* its decisions 2001/1, 2002/2, 2003/1, 2004/6, 2005/2, 2006/4 and 2007/2;
2. *Notes* the report provided by the Implementation Committee on the progress made by Norway, based on the information provided by Norway on 14 March (ECE/EB.AIR/2008/3, paragraphs 4 to 6), and in particular its conclusion that Norway was in 2006 in compliance with its emission reduction obligations of the 1991 Protocol Concerning the Control of Emissions of Volatile Organic Compounds or Their Transboundary Fluxes for its tropospheric ozone management area;
3. *Welcomes* the achievement by Norway of compliance with its emission reduction obligation for its tropospheric ozone management area in 2006, after seven years of non-compliance;
4. *Decides* that there is no reason for the Implementation Committee to continue to review Norway's compliance with its obligation under article 2.2 (b) of the Protocol.
