

Key area of work	Organisation	Type of activity (e.g. capacity development, frameworks, guidelines, methodologies, tools, table-top and field exercises, mutual notification and assistance, case study projects, etc.)	Target region/countries
Accident prevention	UNECE, JRC, (DG ENV), UNEP, OECD, ILO, WHO, EPSC	Capacity development (IHR and chemical emergencies trainings)	Individual countries (B&H) and sub-regions (SEE, Eastern Europe)
		<p>Guidance Materials and Frameworks: Flexible Framework Guidance Implementation Support Package (ISP)</p> <p>Capacity Building/ Pilot projects: Supporting national governments to develop chemical accident prevention and preparedness programmes through “CAPP Programme Projects”- methodology described in ISP</p>	Global, developing countries: Until now the key countries have been Cambodia, China, the Philippines, Sri Lanka, Thailand; Mali, Senegal and Tanzania. The list is not exhaustive and will be expanded as countries request support
Emergency preparedness	UNECE, JEU, JRC, DG ECHO, (DG ENV), UNEP, OECD, ILO, WHO, EPSC	Development of tools (RIECO Project “Risk assessment of industrial accident and enforcement of cross-border obligations”)	Non-EU countries in WHO European Region
		<p>Capacity development (IHR and chemical emergencies trainings)</p> <p>UNEP APELL Programme: APELL Handbook and materials; APELL practitioners network, APELL workshops and field exercises.</p>	Individual countries (B&H) and sub-regions (SEE, Eastern Europe) Global, developing countries: current project with ICCA in Ghana and Kenya
Emergency response	UNECE, JEU, (JRC), DG ECHO, (DG ENV), OECD, WHO, ILO	Development of tools (RIECO Project “Risk assessment of industrial accident and enforcement of cross-border obligations”)	Non-EU countries in WHO European Region
		Capacity development (IHR and chemical emergencies trainings)	Individual countries (B&H) and sub-regions (SEE, Eastern Europe)

Public awareness, information and participation	UNECE, UNEP APELL, WECF, (OSCE), JEU, (DG ENV), (OECD), WHO, EPSC	Development of tools (RIECO Project “Risk assessment of industrial accident and enforcement of cross-border obligations”)	Non-EU countries in WHO European Region
		Capacity development (IHR and chemical emergencies trainings)	Individual countries (B&H) and sub-regions (SEE, Eastern Europe)
		Capacity Building (workshops), tools (educational tools; Handbooks); train the trainer – multiplying effect; Trainings for Civil Society regarding Aarhus Convention; networking on public level and high level (multi-stakeholder processes)	Eastern Europe, Central Asia, Caucasus Region, and where needed due to our network
		UNEP APELL Programme: APELL Handbook and materials; APELL practitioners network, APELL workshops and field exercises.	Global, developing countries
Land-use planning	UNECE, (JEU), JRC, ILO, EPSC	No active work, but guidance available in Flexible Framework Guidance Document	
Accident reporting and communicating lessons learned	UNECE, JEU, JRC, (UNEP), WECF, OECD, ILO, WHO, EPSC	WHO Event Management System (EMS) – daily reporting of events incl. chemical and annual analysis of tendencies with development of recommendations for priority actions	Globally
		Capacity Building (workshops), tools (educational tools; Handbooks); train the trainer – multiplying effect; Trainings for Civil Society regarding Aarhus Convention; networking on public level and high level (multi-stakeholder processes)	Eastern Europe, Central Asia, Caucasus Region, and where needed due to our network
		Flexible Framework Initiative: Activities on-going with Chinese Ministry of Environmental Protection to develop pilot format for sharing accident information and translating case studies of accidents, jointly with MAHB	China
Cross-border cooperation	UNECE, (JEU), (DG ENV), (OECD), WHO	Requirement of the International Health Regulations (obligation in case of events)	Globally
