Convention of the Protection and Use of Transboundary Watercourses and International Lakes

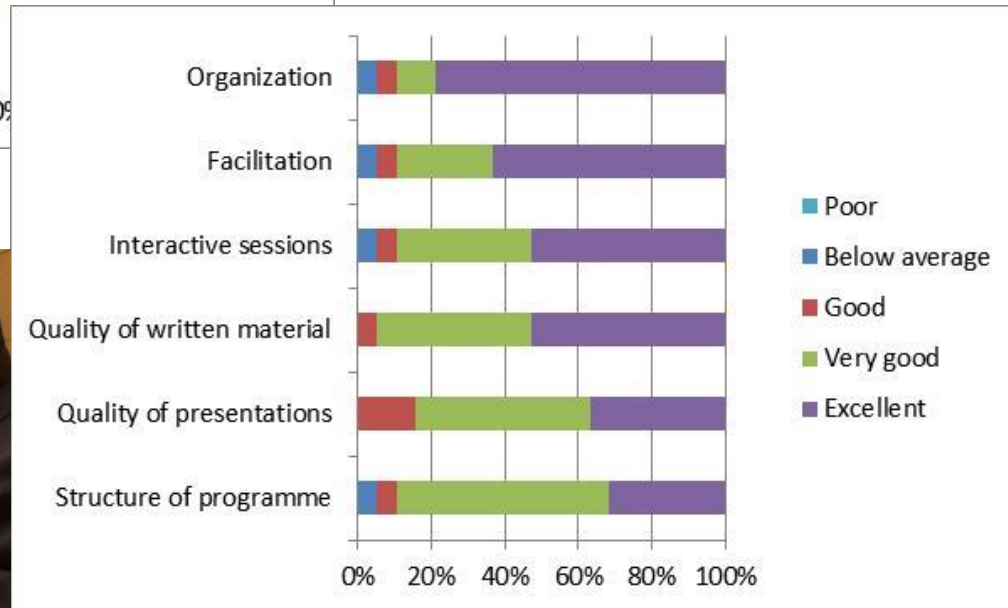

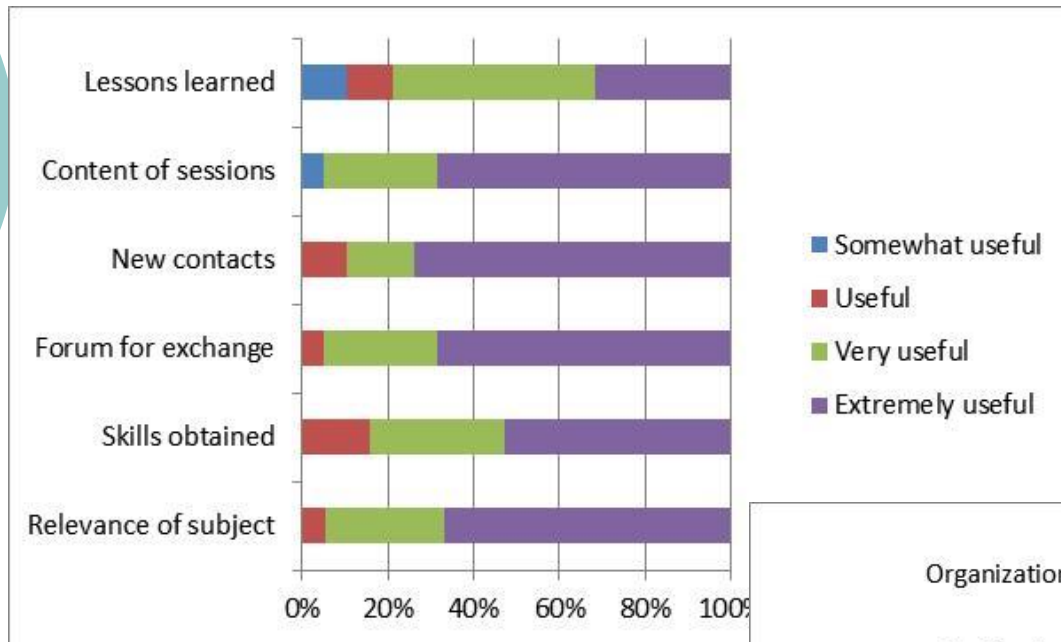

# 2<sup>nd</sup> meeting Global Network of Basins - 13-14 February 2014

---

- Various interactive sessions and presentations
- Good exchange of ideas

# Evaluation of meeting

## Some conclusions

---

- More attention for financing of adaptation measures
- Droughts will be of increasing importance
- The role play showed the importance of the local level – stress multi-level decision making and multi-level strategies.
- Thematic exchange of experiences, e.g. hydropower

# Good practices and lessons learned

---

- Some delay in the process
- List of good practices
- Drafting teams per chapter are working
- Working on matrix

# Matrix of good practices and lessons learned (1<sup>st</sup> draft)

	1. Institutional arrangements	2. Apply IWRM principles	3. Information and data needed	4. Vulnerability and impact assessments	5. Developing and prioritizing adaptation measures	6. Financial and economic matters	7. Evaluation of adaptation strategies	8. Capacity development	9. Communication and stakeholder involvement
