II. Preparations for the thirty-ninth session of the Executive Body

The Bureau discussed the provisional agenda of the thirty-ninth session of the Executive Body (ECE/EB.AIR/143), the organization of the session, the list of documents and the decisions the Executive Body was expected to adopt.

The Bureau noted that the discussions on the treatment of the condensable part in particulate matter and on the review of compliance by Parties to the Gothenburg protocol during the transition period under agenda item 5(a), as well as those on the review of the Gothenburg Protocol under item 5(b) would be held in the afternoon on the first day of the session.

The Bureau agreed that the draft concept note for the Forum for international cooperation on air pollution (item 6 of the provisional agenda) would not be presented for adoption and would need to be further developed after the session based on the comments received. The text of the respective draft decision would need to be revised accordingly. The secretariat informed the Bureau about the options for involvement of UNECE with the Forum.

With respect to the proposal by the United States of America to amend the Gothenburg Protocol (item 11), the Bureau member from the Russian Federation welcomed it noting that the time restrictions posed a barrier for countries in Easter Europe, the Caucasus and Central Asia on the way to ratification.

The Chair of the Working Group on Strategies and Review suggested on behalf of Canada that the need for amendments to the Rules of Procedure for the Executive Body (item 12) and subsequent decision on any possible changes could be considered and taken next year.

III. Preparations for the fortieth anniversary special session

The secretariat informed the Bureau of the latest changes in the programme of the special session.
