We also provide all the information on your request from 12.09.2013 Ref. EIA/IC/CI/4 in the Annex to the letter of the Ministry of ecology and natural resources from 15.10.2013 № 14925/13/10-13 concerning the procedure of renewal of NPPs France, Germany and the UK and procedures performed in the framework of compliance with the Espoo Convention in a transboundary context.

The government of the Federal Republic of Germany adopted a decision to abandon nuclear energy and is scheduled to close all existing NPPs until 2022. The question of renewal of NPPs in Germany is not relevant.

The company EDF is the operating organization, which unites 58 French nuclear power plants and 8 from 9 operating British NPP (see Appendix 1).

According to the information received from the EDF in the license for the French NPP power unit operation is not provided the design service life of power units as the procedure for extending the lifetime of the plant is carried out by the revaluation of safety on conformity to the essential requirements specified in the initial license (as in Ukraine). Based on the assessment of periodic safety analysis report, the French regulatory body for nuclear and radiation safety in accordance every 10 years, gives the permission to the further operation of NPP power units in the next 10 years.

The position of the French party is Convention shall not apply during the extension of the lifetime of NPP.
