

To: UNECE secretariat (received on the [efe@unece.org](mailto:efe@unece.org) e-mail)

Thank you for your email of January 31st that distributed the questions for consideration regarding reform of the Environment for Europe (EfE) process.

Ensuring the EfE process remains relevant and valuable will certainly strengthen its effectiveness and, by extension, environmental quality across the region. At this time, however, Canada does not have any comments.

We look forward to learning more about the results of your reform discussions and wish you success in your research.

Sincerely,

David McGovern  
Assistant Deputy Minister / Sous ministre adjoint  
International Affairs / Affaires internationales  
Environment Canada / Environnement Canada
