IDF 2018: Forests and Sustainable Cities
Training, support, and education are key for an inclusive transition to a greener economy.

Focus on forest ecosystem services management should be key for development of future curricular and training in the forest sector.

Roundtable/Event at RFSD 2019?
Alignment with Objective of the UNECE Strategy for Education for Sustainable Development:

“equip people with knowledge of and skills in sustainable development, making them more competent and confident while at the same time increasing their opportunities for leading healthy and productive lifestyles in harmony with nature and with concern for social values, gender equity and cultural diversity”
Forest Communicators Network subgroup: *Forest pedagogics*
- Foster understanding, use and application of the concept of sustainable development through the example of sustainable forest management
- Based on knowledge about forest ecosystems and experience in sustainable forestry
- Forests as healthy learning locations for outdoor education
