

Education for Sustainable Development in Belarus

Professor Sergei Maskevich

Vision of ESD priorities for Belarus

- **Teachers.** Training and professional development of teachers to promote ESD concept;
- **Practice.** Active development and implementation of sustainable development strategies in educational institutions, including "green" universities and schools model; international projects in SD/ESD;
- **Knowledge.** Saturation of existing training courses and programs with SD principles and ESD approaches; development of specialized training programs, courses, teaching materials on the subject of "Sustainable Development" and their integration into the activities of institutions of formal and non-formal education;
- **ESD institutionalisation.** Consolidation of the concept and ESD implementation mechanisms in laws and regulations, as well as support of structures aimed at ESD developing.
