Item 4 of the provisional agenda

Information Paper No.2

REPORT ON PROGRESS MADE BY THE UNECE EXPERT GROUP ON INDICATORS FOR EDUCATION FOR SUSTAINABLE DEVELOPMENT

DRAFT REVISED REPORTING FORMAT¹

Prepared by the Chair of the Expert Group on Indicators for ESD
with the assistance of the secretariat

1. The reporting format provided in this document was developed following the adoption by the UNECE Steering Committee on Education for Sustainable Development (ESD) of the Work Plan for the Implementation of the UNECE Strategy for Education for Sustainable Development, 2005–2007 (CEP/AC.13/2005/8), which contains the procedure for the review of implementation of the UNECE Strategy for ESD. [The reporting format also takes into account the pilot reporting exercise and feedback from countries on the workability and feasibility of the indicators and the requested information for reporting.](#)
2. The *set of indicators* was developed by the UNECE Expert Group on Indicators for ESD that was set up by the High-level Meeting on ESD. ~~Two~~ [Three](#) complementary progress reports provide the information on the developed set of indicators (see documents CEP/AC.13/2005/9, ~~and~~ [ECE/CEP/AC.13/2006/5](#) ~~and~~ [ECE/CEP/AC.13/2008/4](#)).
3. Following the request of the High-level Meeting [and the decision by the Joint Session on ESD at the Belgrade Ministerial Conference “Environment for Europe”](#), the *reporting requirements* were streamlined by UNESCO and UNECE. Thus, UNECE Member States will be able to submit a single report on the implementation of the UNECE Strategy that can also serve as a report on the implementation of the UN Decade of ESD. A standard reporting format would provide a useful structure for processing the information received and would facilitate comparison of reports. Therefore, UNECE in cooperation with UNESCO developed the reporting template which appears in this document.
4. Following are the main elements of the reporting procedure:
 - (i) UNECE Member States should prepare reports² through a transparent consultative process involving all relevant stakeholders at the national/state level.

¹ This document was not formally edited.

(ii) [36 member States reported on voluntary basis by preparing reports for the Belgrade Ministerial Conference in 2007.](#) The first formal call for reporting ~~could will~~ take place in 2010. Thereafter, an updated version of the report ~~will could~~ be prepared by the respective Member States for 2015. ~~However, Member States would start reporting voluntarily by preparing reports for the Belgrade Conference.~~

(iii) Reports should be submitted to the secretariat electronically in Word format. The text should be in English. Member States are also encouraged to provide the text in the two other official languages of the UNECE, French and Russian. Reports will be made available in the languages in which they are received. No editing will be provided.

(iv) Deadlines for submission to the secretariat will take into account UN document management procedures and will be communicated by the secretariat in due course.

(v) UNECE will post the reports on its website. It will also ensure the distribution of hard copies to the UNECE Member States and key stakeholders. UNESCO will ensure access to the reports through its website and will use them for its work.

(vi) [The first progress report on the basis of the voluntary reporting by countries was prepared for the Belgrade Ministerial Conference \(ECE/BELGRADE.CONF/2007/INF/3 - ECE/CEP/AC.13/2007/2\).](#) The UNECE secretariat will prepare a synthesis report for 2010 and for 2015, highlighting the progress made, identifying challenges and drawing up recommendations.

(vii) Key stakeholders are encouraged to provide the secretariat with their reports on programmes or activities that support the implementation of the Strategy.

(viii) Meetings of the Steering Committee will be a forum for considering reports. The “Environment for Europe” Ministerial Conferences will be informed of progress as appropriate and will be encouraged to hold joint environment/education sessions as needed.

² Countries with a federal structure will submit one consolidated report based on subnational/state inputs.

¹⁴ At the state level, where relevant.

²⁰ A “whole institution approach” means that all aspects of an institution’s internal operations and external relationships are reviewed and revised in light of SD/ESD principles. Within such an approach each institution would decide on its own actions, addressing the three overlapping spheres of Campus (management operations); Curriculum; and Community (external relationships).
