How should the Working Group continue its work on integrating economic, social and environmental data into the Shared Environmental Information System?
Objectives

The aim of the Working Group, under the oversight of the Committee, is to:

- 2 (c) Serve as a regional environmental information and assessment network of networks and, as part of this process, develop an inclusive platform through which countries can discuss interlinkages between environmental, economic and social considerations as regards the 2030 Sustainable Development Agenda, the green economy, and other related areas of work.
Improving environmental monitoring and assessment in support of the 2030 Sustainable Development Agenda
