Dear Mr Ewing

The planning applications relating to 2 Denning Road, Beechwood House and 11 Netherhall Gardens, on which you made deputation requests on 23rd November, will now be considered by the Development Control Committee at its meeting on 15th December 2010 at 7pm.

As you are aware, the Committee will only accept deputations from people or organisations who have a planning-related interest that could be affected directly by the matter under consideration. You have been advised that the committee will therefore only accept a deputation request from you provided that you can demonstrate in your deputation request that you have a planning related interest that is directly affected by the matter under consideration. Your deputation requests do not address this and, as your home address is not in the vicinity of any of the applications on which you wish to speak, nor even in the same ward, we do not consider that you could be directly affected by any of them. Consequently officers will be recommending that your requests are considered as written submissions and not as deputations.

Regards

Vicky Wemyss-Cooke
Principal Committee Officer
