3. *Encourages* outreach by individual Parties to non-governmental organizations, such as through regular national dialogues on policymaking in international forums and twinning initiatives between countries with experience and other interested countries;

4. *Also encourages* collaborative activities by groups of Parties to promote the Almaty Guidelines and the principles of the Convention in international forums whose practices do not presently reflect the Guidelines or the principles of the Convention;

5. *Requests* that the above activities be designed, where appropriate, to facilitate the participation of non-English speakers and to ensure the inclusion of a wide range of perspectives, including participants involved in other international forums and academia;
