

The UNECE Committee on Housing and Land Management, an intergovernmental body of all UNECE member States, provides a forum for the compilation, dissemination and exchange of information and experience on housing, spatial planning and land administration. The Committee supports the economic and social stabilization of transition countries by suggesting innovative ways the different levels of Government can cooperate. Through its various workshops, research on urban issues and land administration, and analyses of the housing sector, the Committee advises member countries on human settlements policies and strategies, and encourages their practical implementation.

Within the Committee's programme of work, the country profiles on the housing sector represent a tool for Governments to analyse their policies, strategies, institutions, and legal and financial frameworks for the housing sector. These profiles are analytical studies, drafted by independent international experts and conducted at the request of the countries themselves. Recommendations for improving policies and practices are an essential part of the exercise.
