An Implementing Branding for each of us

The New Urban Agenda branding has been developed to be as diverse, participatory, and inclusive as the process that it represents.

Two logo alternatives when branding your work in implementing the New Urban Agenda: **a standard logo and a do-it-yourself (DIY) logo**, both of which can highlight and create brand recall for the work of UN agencies, different levels of government, intergovernmental organizations, non-profit organizations, and private sector entities.

Looking forward to seeing you in Kuala Lumpur!
