Country Profiles on Housing and Land Management
Republic of Belarus

ELENA RAKAVA
Consultant of the Department of Economics and Foreign Economic Activity of the Ministry of Construction and Architecture of the Republic of Belarus

Ministry of Architecture and Construction of the Republic of Belarus
Alongside other UN member states, Belarus is actively involved in the process of achieving Sustainable Development Goals (SDGs) adopted at the UN Summit in September 2015. In 2017 the Republic of Belarus was one of the first countries to prepare a national report on the implementation of the 2030 Sustainable Development Agenda. In 2018, Belarus will develop a platform for statistical reporting on indicators of the Sustainable Development Goals развития на период до 2030 года.
An important factor in achieving the SDGs is mutually beneficial global and regional cooperation, exchange of knowledge and experience in the field of innovation for capacity building and technology transfer for development.
PRIORITY DIRECTIONS OF COOPERATION
OF THE COMMITTEE ON HOUSING AND
LAND MANAGEMENT:

affordable housing,
energy efficiency,
housing construction,
smart cities,

Ministry of Architecture and Construction of the Republic of Belarus
Preparation of the Country Profile on Housing and Land Management of the Republic of Belarus in 2018:

1) Preparatory mission (December 2017)

2) Research mission (May - June 2018)

3) Analysis of information and preparation of the study, including recommendations to the Government of Belarus on improving the housing policy (July - September 2018);

4) Launching event (May 2019).
Workshop on the Sustainable urban planning and housing: national priorities of the Republic of Belarus and best international practices
Grodno (Belarus),
31 May -1 June 2018

Organized by:
Ministry of Architecture and Construction of the Republic of Belarus,
Ministry of Natural resources and Environmental protection of the Republic of Belarus,
UNECE,
UN-Habitat,
State Enterprise "Housing Institute - NIPTIS named after S.S. Ataev",
UNDP-GEF project "Belarus: supporting Green Urban Development in Small and Medium-Sized Cities in Belarus"
Workshop on the Sustainable urban planning and housing: national priorities of the Republic of Belarus and best international practices, Grodno (Belarus) 31 May -1 June 2018.
The first strategic project for the development of the city of Brest until 2050 - “Brest: SimbioCity - 2050” was developed. The strategy provides for synergy - combining the efforts and means of various sectors of the municipal economy for maximum efficiency of the city of Brest as a living and sustainable city. The concept of the project was presented at the Grodno workshop.
The Country Profile launch event is planned for 23-25 May 2019 in Minsk with a direct participation and support of the UNECE, the Academy of Public Administration under the aegis of the President of the Republic of Belarus, UNDP and other partners.

At the same time, a workshop will be held on the theme: “The development of green building. Modern energy-saving technologies in the construction of objects”.

As a result of the work on the Country Profile, it is planned to implement a joint project with the UNECE “Creating a residential area of green construction using energy-saving and environmentally friendly technologies for housing construction on the example of Grodno”.
Thank you!
