Asker municipality, Norway

Sustainable Smart City profile
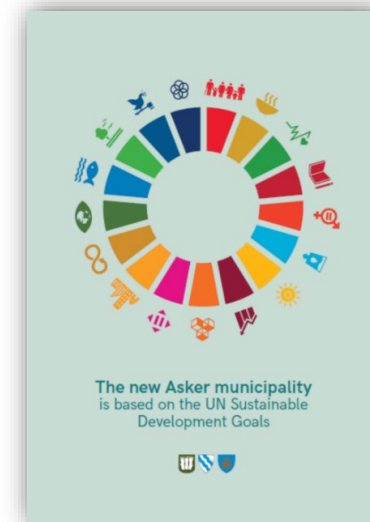

Geir Graff – geir.graff@asker.kommune.no

October 7th 2020

On January 1ˢᵗ 2020, three municipalities merged to become Asker municipality

- **The 8ᵗʰ largest population** of Norwegian municipalities

- **Built on the SDGs**.

- **Co-creating** citizenship

- **Multi-center** municipality

- **Smart** municipality

*The SDGs give us the **strategic direction** for developing the society.*

Models – **Practices** - **Methodology**

Coherence all the way from the global goals to local targets, plans, missions and actions

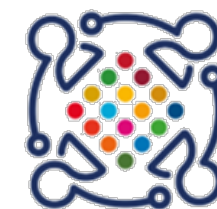

The implementation programme *«Sustainable Asker»*

Knowledge   Goals   Methodology   Leadership   Partnerships   Mobilization   Network
Projects   Measurements   Budgeting   Co-creation   Change mgmt   Reporting

U4SSC KPI evaluation as a driver for change

«Snap shot» of local knowledge

	Engage	Design	Activate	Accelerate	Support
Standardize	Evaluate	Visualize	Simulate	Finance	Share
Develop policies	Review	Revise	Plan	Budget	Analyze
Establish innovation partnerships	Make appointments	Link together	Collaborate	Prioritize	Manage the portfolio
Change the organization	Identify	Lead	Support the intrapreneurs	Make room for self-organisation	Twin
Involve the citizens	Acknowledge	Deliberate	Localize	Connect	Amplify
Develop projects	Pitch	Create prototypes	Deliver	Capitalize	Tell stories

Framework for driving change

Partnerships for learning and scaling solutions

Both challenges and possibilities in Asker

Transport and mobility

Create solutions for better flow, lessen the emissions, enhance wellbeing and health

Circular models

We use too much rescources. We need circular models within all areas; seeing the whole value chain.

Social equality

leaving no one behind

Digital infrastructure and smart technology

The «Greenest» area in the KPI. Are we using our infrastructure in av way that enhances sustainable developement? How can digital infrastructure and smart technology drive a sustainable developement?

Challenges going forward

- **Making the complex simple**, **local and practical**

- **Working across** the service areas and the levels of government

- **Utilizing digital infrastructure and** developing and using **smart technology** to support transformation within defined areas of transformation

- **Partnering up** with the right partners
