Guidelines to ToS Wood Energy Work

Alicja Kacprzak
UNECE/FAO Forestry and Timber Section

First meeting of the Team of Specialists on Wood Energy, 16 June 2014
Mandate

• Adoption of the Integrated Programme of Work for 2014-2017 by the ECE COFFI and the FAO EFC at Metsä2013
• Implementation of the Programme of Work through the joint Working Party on Forest Statistics, Economics and Management
• Mandated by the COFFI and the EFC, the Teams of Specialists will report annually to the Working Party
• Guidelines for Teams of Specialists (ToS), on how to support the implementation are included in the Integrated Programme of Work
Teams of Specialists

**WA1 Data, monitoring and assessment**
- Monitoring Sustainable Forest Management
- Sustainable Forest Products
- Forest Products Statistics
- Wood Energy

**WA2 Policy dialogue & advice**
- Forest Policy
- Forest Sector Outlook
- Forest Fires

**WA3 Communication and outreach**
- Forest Communication

**WA4 Capacity-building**
- Green Jobs in the Forest Sector

**Implementation of the Integrated Programme of Work**
Committee on Forests and the Forest Industry (COFFI) and the European Forestry Commission (EFC)

COFFI Bureau and EFC Executive Committee: the joint Bureaux

ECE-FAO Joint Working Party on Forest Economics, Statistics and Management (JWPSEM)

ToS
Creation of ToS Wood Energy

• In Feb 2014 Secretariat circulated the ToR to ECE Member States and all relevant Stakeholders in the ECE region and asked them to nominate their official representative
• Experts without official affiliation can also contribute to the Team work at the invitation of the Team Leader, in close consultation with the secretariat
• The ToS will appoint a Leader and, if deemed necessary, one or two Deputy Leaders for a duration of two years
• The Team will prepare its work plan for a two year period defining the time schedule and the resources needed, including those resulting from fund raising
ToS Wood Energy – ToR

A. Objectives

1. Advise and support the joint ECE/FAO Forestry and Timber Section on the methodology for and the implementation of the Joint Wood Energy Enquiry and studies related to wood energy

2. Contribute to a better understanding of wood energy statistics as a basis for sound policy making
B. Activities

1. Monitor and analyse the policy related to wood energy and the implications for the forest sector

2. Provide guidance on the Joint Wood Energy Enquiry (JWEE)

3. Build the capacity of ECE member states to develop reliable statistics on wood energy sources and uses

4. Disseminate information on wood energy and liaise with relevant ToS and other organizations
C. Expected major outputs

1. List of recommendations on the methods for, analysis and conduct of the Joint Wood Energy Enquiry
2. Suggestions on the focus of work on wood energy-related publications and products
3. Improved quality and quantity of replies to the JWEE
ToS Wood Energy

Duration: From January 2014 to December 2015. Renewable

Methods of work: Annual meeting. Other methods to be determined by the Team

Communication: The Team Leader and secretariat should ensure close cooperation with the ToS on Sustainable Forest Products and the ToS on Forest Products Statistics.
Thank you
