History   GGP.at
History GGP.at

- Project Development GGP.at started in 2002
- Had some serious drawbacks,
  - acquisition took 5 (!) years
- In 2007 first wave was contracted
- GGS.w1 surveyed from Sept. 2008 – February 2009
- In January 2010 GGSw1.at was sent to NIDI
  - Since September 2010 GGS.at is internationally available
- Negotiations on GGS.w2 started in January 2010
- Again some drawbacks (budgetary crisis…)
- In May 2011 political decision on continuing GGP.at
Sample Design

... the idiosyncratic Austrian pathway
### Sample Design

<table>
<thead>
<tr>
<th></th>
<th>GGS wave #1 (2008f)</th>
<th>GGS wave #2 (2012f)</th>
</tr>
</thead>
<tbody>
<tr>
<td>n = 5000 (!)</td>
<td></td>
<td>n (min) = 4250 + 620 = 4870</td>
</tr>
<tr>
<td>3000 females + 2000 males</td>
<td></td>
<td>Contracted: max.15% attrition in general (!) max.20% attrition per group</td>
</tr>
<tr>
<td>Age Range: 18 – 45</td>
<td></td>
<td>Age Range: 18 – 49</td>
</tr>
<tr>
<td>➔ Sample drawn from ZMR</td>
<td></td>
<td>➔ within Austria we can follow every respondent!! (just 1.6% failed yet)</td>
</tr>
<tr>
<td>96% agreed on being interviewed again!</td>
<td></td>
<td>➔ We expect rather low attrition</td>
</tr>
</tbody>
</table>
### Sample Report Wave #1 (2009)

<table>
<thead>
<tr>
<th>Category</th>
<th>Value</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gross Sample</td>
<td>9006</td>
<td>100%</td>
</tr>
<tr>
<td>Neutral Drop Outs</td>
<td>769</td>
<td>9%</td>
</tr>
<tr>
<td>Net Sample</td>
<td>8237</td>
<td>91%</td>
</tr>
<tr>
<td>Refusals/Abruptions</td>
<td>2075</td>
<td>23%</td>
</tr>
<tr>
<td>Language/not prepared for interview</td>
<td>295</td>
<td>3%</td>
</tr>
<tr>
<td>Not Contacted</td>
<td>867</td>
<td>10%</td>
</tr>
<tr>
<td>Full Interviews</td>
<td>5000</td>
<td>56%</td>
</tr>
</tbody>
</table>

Wave #1

Additional Parts and Items
Wave #1

- Optional sub-module A (Nationality and Ethnicity) implemented
- Idiosyncratic Austrian norms on labour market policies met
- We had to reduce the questionnaire by a small number of sub-items
- Quite detailed weighting procedure developed
  - Criteria:
    - sex; age; country of birth; employment status
    - Family Type
    - Parity (women)
Wave #2

Additional Parts and Items
Wave #2

- Follow GGSw2 questionnaire quite exactly …. but …. Keep TPB – items of wave #1 !!!

- Integrate PBC-items of new GGS-questionnaire (6.19; 7.08-7.10)

- Again: Weights (cross-sectional & longitudinal)
  - By … + Family Type + Parity
Contextual Database
Contextual Database

- Austria (2010) nearly met all demands of the CDB-list
- Additional documentation database behind
- After submission CDB-list was simplified
Outlook
Outlook

- Contracts for wave #2 will be signed soon
- CAPI-programming & testing on the way (no separate piloting)
- GGS.w2 will enter the field in September 2012
- We expect to transmit the GGSw2.at to NIDI by first quarter of 2014
- GGSw2.at and CDB.at available by August 2014
- ➔ 2014: Acquisition of wave#3 ↔ permanent programme [?]
