World Bank Institute

## **Sub-regional workshop on sharing of national experiences on the challenges and lessons learned in engendering national statistical systems**

Organized by the United Nations Economic Commission for Europe in collaboration with the State Statistical Office of the Republic of Macedonia and UNDP

15-17 February 2010

---

### **Objectives:**

- To understand the need for gender statistics and present the case to convince others
- To gain knowledge of the types of the sources and the indicators on violence against women (VAW) and to learn about the recent international work on measurement of VAW
- To share national experiences and lessons learnt in engendering national statistical systems
- To develop an action plan for improving the availability and use of gender statistics
- To establish networks among participants to enhance future cooperation.
