

Gender Statistics: dissemination and communication

Content

- 1. Short summary of the gender statistics provisions**
- 2. Dissemination of the gender statistics data**
- 3. Communication with data users and producers**
- 4. Further development of the gender statistics**

Short summary of the gender statistics provisions

- Special department responsible for the gender statistics matters and MDG/SDG is in place since 2011.
- During the process of elaborating/updating statistical reports forms gender aspect is always considered.
- Different surveys are conducted, new indicators are implemented etc.
- National Indicator System is implemented based on the international standards.
- Section “Gender Statistics and Millennium Development Goals Indicators” is available at the internet site of Statistics Committee of the Ministry of National Economy in the Republic of Kazakhstan.
- Dialog with the users and producers of the data is going.

Dissemination of the gender statistics data

On-line

Section “Gender Statistics and MDG Indicators” includes:

- Data since 2000 differently disaggregated (by age groups, rural/urban, regions)
- Data visualization as graphs, diagrams and info graphics
- International comparability of main indicators

Section “Official statistics” includes:

- Press-releases on gender statistics, coverage of different gender statistics events, every year
- Statistical compilation “Women and Men in Kazakhstan” in three languages (since 1999), every year
- Publishing the outcomes of the single time selective surveys: “Life Standards of Disabled People”, “Violence Against Women”, “Level of Trust Towards Law Enforcement Agencies” etc.

Dissemination of the gender statistics data

On paper

Statistics compilation “Women and Men in Kazakhstan” includes:

- 10 chapters, (demographical and social characteristics, education, health, employment and unemployment, small and medium enterprise, crime, government offices etc.)
- Data for the last 5 years disaggregated in different ways (age groups, rural/urban, municipalities)
- Data visualization as graphs, tables and diagrams
- Definitions/metadata of the main indicators

Booklet “Gender Statistics in Kazakhstan”

Publishing the outcomes of the single time selective surveys: “Life Standards of Disabled People”, “Violence Against Women”, “Level of Trust Towards Law Enforcement Agencies” etc.

Other statistics publications:

- Demographics Yearbook
- Youth of Kazakhstan
- Children of Kazakhstan, Life Standards of Kazakh Population etc.

Communication with data users and producers

Thanks to the forming of the specialized department in 2011 the interaction with statistical information users and producers has been intensified and is carried out through :

- ✓ Holding regular meeting, sessions, conferences and round tables
- ✓ Inviting representatives of governmental agencies and NGOs to participate in the work groups
- ✓ Holding special seminars and training related to gender statistics

Communication with data users and producers

Interacting with the following main partners – gender related data users and producers:

- ✓ National Committee for Women and Demographic Family Policy under the President of the Republic of Kazakhstan
- ✓ Members of Parliament
- ✓ Different Governmental agencies - from Ministry of Labour and Social Protection to General Prosecutor Office
- ✓ State-run institutions, subordinate organizations of different ministries
- ✓ Scientific research institutes: Economic Research Institute, State Administration Academy under the President of the Republic of Kazakhstan, Law Enforcement Academy, Center of Public Opinion Studies and many others.
- ✓ Non Governmental Organizations
- ✓ National Companies and public associations (trade unions, employers associations)
- ✓ Political Parties
- ✓ International Organizations (banks of development, UN agencies)

Communication with data users and producers

One of the recent examples of communication with statistics data users and producers:

UNECE

Министерство национальной экономики
Республики Казахстан
Комитет по статистике

National workshop on disseminating, communicating and using gender statistics

May 29-31, 2017г. Astana, Kazakhstan

ORGANIZED IN ASSOCIATION WITH STATISTICS COMMITTEE OF KAZAKHSTAN
WITH FINANCIAL SUPPORT FROM UN DEVELOPMENT ACCOUNT

UNECE National workshop on disseminating, communicating and using gender statistics in Kazakhstan

The primary purpose of the workshop:

- *To enhance the capacity of CS staff to produce and communicate their gender statistics products in ways that meet the needs of users*
- *To enhance the capacity of various user groups to access and interpret such statistics.*

Workshop participants:

- *1 group – Statistics Committee staff*
- *2 group – governmental bodies, non-governmental organizations and international organizations/UN agencies*
- *3 group – Universities and Research Institutes, mass medias and international organizations/UN agencies*

UNECE National workshop on disseminating, communicating and using gender statistics in Kazakhstan

Main results:

- *Good progress is made in gender statistics*
- *Close and regular contact is necessary to keep some user groups, such as the media, engaged*
- *Improved using of gender statistics based on the evidence and monitoring*
- *Drawn attention to the fact that production alone is not sufficient without effective communication*

UNECE National workshop on disseminating, communicating and using gender statistics in Kazakhstan

Main suggestions:

- *Enhance the dissemination of data :*
 - creating separate section “Gender Statistics” with new design and structure;
 - creating a separate section “Monitoring of Violence Against Women”;
 - issuing user-friendly publications: short publication “Women and Men in Kazakhstan”, booklet on gender statistics;
 - developing a transformer of gender statistics;
 - preparing interactive graphical materials, infographics etc.
- *working with Sustainable Development Goals, including dissemination of data and communication*
- *working with users for the purpose of increasing statistical literacy: preparing training modules and holding workshops on gender statistics, including on regional level*

Thank you for your attention!
