1990
• 220 thsd. people
• 12 years of age and older
• Permanent population 4 mln. 357 thsd. people

2005
• Permanent population 5 mln. 092 thsd. people
• 3230 households

2010
• Permanent population 5 mln. 447 thsd. people
• 4929 households

2015
• Permanent population 5 mln. 895 thsd. people
• 5014 households
ORGANIZATION OF 2015 SURVEY PROCESS

Number of interviewers 81 people

Number of supervisors 21 people

Conduction period 1st quarter of 2015

Dissemination of results www.stat.kg

Data processing period 4th quarter of 2015
STRUCTURE OF THE PUBLICATION
«TIME USE SAMPLING SURVEY RESULTS» 2015

All tables by:
Gender/sex (men (male)/women (female)
Place of residence (urban (city/town)/rural (village)

Use of daily available time
Use of time for household maintenance
Use of free time
Use of time to meet physiological needs/demands
STRUCTURE OF DAILY AVAILABLE TIME*

1. Paid job
   Work time:
   a) paid work,
   b) entrepreneurial (self-employment) intermediary trade and individual activity,
   в) work in peasant farm
   Out of hours time related to work:
   a) accept and deliver a shift,
   б) travel to work and back,
   в) food break (lunch/break to have eat)

2. Non-paid economic activity
   Non-paid work
   Household maintenance
   Care of children and oldest household members

3. Own care/care of him/herself

4. Other time use non specified above

*According to the recommendation of the UNESCAP expert on time budget Mr. Sanny Jose Gossman (October 2015).
The information was collected in 5014 households.

Total number of respondents - 14066 people

- **46%** - men
- **54%** - women

- **Working age people (16-59 years)**
- **Youth aged (14-28)**

- **16-54 years**
KEY RESULTS OF THE DISTRIBUTION OF DAILY AVAILABLE TIME OF HOUSEHOLD MEMBERS BY GENDER/SEX

Work time

- 12.9% for men
- 7.3% for women

Free time

- 12.9% for men
- 7.3% for women

Meet physiological needs

- 45.3% for men
- 45.2% for women

Household maintenance

- 6.5% for men
- 18.8% for women

Care of children

- 0.6% for men
- 1.2% for women
PROBLEMS AND CHALLENGES

- Lack of national (intellectual, human, financial) capacity to perform such kind of systematic surveys;
- Lack of practical use of survey results.
