Session 5: Coordination of Capacity Building

UNECE Expert Meeting on Statistics for SDGs

10-12 April 2017, Geneva

Session 5: Capacity building

• How to coordinate
• Existing mechanisms (PRESS, Eurostat-UNECE donor questionnaire, UNDAF, etc.)
  - are they sufficient?
  - do we need something in addition
• Present different viewpoints
  - Coordinator of donor support and facilitator of capacity building – Paris21
  - International organization with regional and country offices – UNICEF
  - Country - Kyrgyzstan
  - Other regions – Mexico (ECLAC experience)
• Any recommendations to countries and actions to Steering Group?
Capacity to produce statistics

**Technical human resources**
- The practical skills needed to produce, analyse and disseminate statistics

**Technical infrastructure**
- The equipment needed to do the work (buildings, computers, network, etc)

**Organisational human resources**
- The skills needed to make the organization work efficiently together to fulfill the mandate

**Organisational infrastructure**
- The systems needed to do the work (financial flows, legal framework, employment agreements, project management tools, quality framework, etc)

**Finances**
- Public and other funds to cover the cost of running the organization and producing the statistics

**Strategic choices**
- Priority of which statistics to produce, user orientation, dissemination strategies, NSSs

**Networks**
- NSS partners, Government and other user groups, publication strategy, dissemination to producers, academics, etc
