SDG MONITORING
1. Institutionalization of the SDGs

2. National SDG indicators and national sustainable development monitoring system

3. Inventory of data sources for global SDG indicators

4. Preparation of a Voluntary National Review
Institutionalization of the SDGs

Decree of the President of Ukraine On the Sustainable Development Goals of Ukraine for the period until 2030, dated 30.09.2019 No. 722

The statutory act provides for:

- the analysis of forecast and policy papers taking into account the SDGs of Ukraine for the period until 2030 and, based on the results of such analysis, the adoption of measures to improve the documents if necessary;
- the introduction of an effective system for monitoring the implementation of the SDGs of Ukraine for the period until 2030 and the publication of its results until March 1 on an annual basis.
Ordinance of the Cabinet of Ministers of Ukraine dated 21.08.2019 No.686-p
The issue of data compilation for monitoring the implementation of the SDGs

The statutory act is aimed at creating conditions for optimizing the data harvesting in order to monitor the SDGs

The act determines:
- data collection coordination framework for monitoring the SDGs;
- public authorities, scientific institutions, international organizations responsible for providing data to the State Statistics Service;
- SDG indicators.
In 2018, an Interagency Working Group was established to further implement and monitor and assess the status of SDG achievement. In addition to specialists from government agencies, it also includes representatives of UN Agencies and the National Academy of Sciences of Ukraine (NASU). The group has developed a system for monitoring the SDGs.

According to the monitoring system, the SDGs in 2019 were prepared by the Ministry of Economy, State Statistics Service, NASU with the support of UNISEF in Ukraine;

Monitoring Report on Ukraine's progress in achieving SDG 8 - Decent work and economic growth in Ukraine;

National Report on Sustainable Development Goals for the Children of Ukraine;

The State Statistics Service of Ukraine is the focal point of data collection for monitoring the SDGs.

Monitoring the SDG indicators in Ukraine provides an overview of progress in achieving the SDGs over the past quadrennial period.

The SDG monitoring data highlights the successfully developing areas towards the implementation of the SDG goals, as well as the areas that require the most attention to develop the next strategy for achieving the goals and targets of Sustainable Development.

Global SDG Stock-taking Results

**State Statistics Service**

- **23** indicators for which data is not available.
- **111** administrative data custodians.

**Indicators introduced, data will be available after 2020**

**A decision should be made on the expediency of making changes to the toolbox**

**Selective socio-demographic surveys (MICS, DHS, time use, child labor) are necessary**

**Data providers need to be determined**

**The calculation of indicators requires approval with the Institute for Demography and Social Studies of the National Academy of Sciences of Ukraine**
Ukraine now faces a challenging task to prepare a **Voluntary National Review**. The Ministry of Economy coordinates the preparation of the VNR, and the State Statistics Service provides information on national and global SDG indicators.

The VNR shall:

- outline the results of Ukraine's progress towards all 17 SDGs;
- identify problems that impede Ukraine along the way;
- provide recommendations on accelerating the implementation of the 2030 Agenda in Ukraine.

The Review will be presented at the High-level Political Forum on Sustainable Development in July 2020.
