2020 POPULATION CENSUS IN AZERBAIJAN: GOALS AND OBJECTIVES

Rza Allahverdiyev, Population Statistics Section Head

On 7 September 2016, the President issued Order on the Population Census in Azerbaijan Republic. Pursuant to the decree and to ensure comparability of population census data CIS-wise, the next population census in Azerbaijan is planned for 1-10 October 2019. To this end, the State Statistics Committee has started preparing an action plan and a relevant Government Resolution.

- Evaluation
- Enumeration
- Planning
- Publication
- Data processing
MATERIALS PREPARATION PHASES

Population census phases

Obtaining and recording data → Initial check

Quality assurance ↔ Data input

Final tables ↔ Editing

Archival storage

Publication and dissemination
ADDITIONAL SETS OF QUESTIONS

- Given the increasing need of data on the disabled, a set of relevant questions is planned to be included into the questionnaire.

- Also there are plans to expand questions on living conditions and housing.
USE OF POPULATION REGISTER

- Considering international practice of using population registers for census purposes, the State Statistics Committee is taking steps to get connected to the Population Register Public Service under the Ministry of Justice.
USE OF HAND-HELD TECHNICAL TOOLS

During the pilot census there are plans to test usage of tablets and other handhelds for completing questionnaires. Based on the outcomes it will be decided whether it is useful to use them during the census.
THANK YOU FOR ATTENTION!
