What is CEDSCI?

CEDSCI is an innovative effort to transform and expand the dissemination of Census content and better serve our internal and external customers.

- Enable data to be easily discovered, accessed, and consumed via Census.gov
- Make data useful for a diverse set of customer needs
- Take advantage of digital opportunities for securely interfacing with the public and other government sources
- Centralize and standardize the metadata
Current Dissemination

The Challenges are:

Too many:
- Tools
- Interfaces
- Topic Lists
- Search experiences

Silos instead of information
- Different systems for different information
- Inconsistent experiences between tools
- Lack of dissemination standards
Current Dissemination Workflow
Future Dissemination Workflow
Iterative Approach

- Scaled Agile Framework (SAFe)
- Dissemination standards
- Platform Concepts
Scaled Agile Framework
