Integrated view of ModerStat Models

Modernstat Workshop
26-28 June, Geneva

Marina Signore
Supporting Standards Group- Chair
The Supporting Standards Group

The goal of the group is to find ways how to develop, enhance, integrate, promote, support and facilitate implementation of the range of standards needed for statistical modernisation.

Operational responsibility for the maintenance and development of:

GAMSO - [Generic Activity Model for Statistical Organizations](#)
GSBPM - [Generic Statistical Business Process Model](#)
GSIM - [Generic Statistical Information Model](#)
Common purposes of the models

- Improve communication by introducing a common language
- Gain efficiency (rationalise processes, information, flow, assign responsibilities,..)
- Support industrialisation process (re-use of methodologies, tool, software, sharing of solutions,..)
- Build staff competencies around the standards (enhance capabilities)
Supporting Standards Group: Activities in 2018

- GSIM Review
- GSBPM Review
- GAMSO update

Modern Stats
GAMSO
GSBPM
GSIM
CSPA
Supporting Standards
A wide range of models (GAMSO, GSBPM, GSIM, CSPA, MMM and Roadmap) are available

More difficult for countries to understand and implement each and all of them

The level of knowledge and implementation of the models varies in different countries and in the same organisation across different sectors

Countries ask for guidance in implementing the models (where to start from, what comes first,...)
Interrelationship among the models

Supporting activities

Input → Production process → Output

The information flow

GSBPM

GAMSO

Strategy & leadership
Capability management
Corporate support
Production

modernstats
Survey results shows that GSBPM has most widespread usage and that maturity level of “multiple model” is not high yet.
Activities for 2019

- Linking GSBPM and GSIM
- Alignment of GSBPM and GAMSO
- Core Ontology
- Metadata Glossary

Aim at setting up – *de facto* - a more integrated view of the modernisation standards

ModernStats World Workshop
26 to 28 June 2019, Geneva
