ENTERPRISE DEVELOPMENT

Working Party on Standardization of  
Perishable Produce and Quality Development  
Fifty-fifth session, 3 to 5 November 1999, Geneva

Item 10 of the Provisional Agenda

ACCEPTANCES OF UN/ECE STANDARDS

Note by the secretariat

The secretariat has prepared a new document with a table where countries are invited to enter their acceptances of UN/ECE standards. The secretariat will report at the next session on the outcome of this survey.

**The following codes should be used to fill out the table:**

- a = accept** - means the Government concerned has undertaken to take the necessary steps under its domestic legislation to adapt its corresponding commodity standards to the provisions of the UN/ECE Geneva Protocol (Section VII). Acceptances by member governments of the European Union (EU) refer to the corresponding EU standards where they exist. These standards in most cases are very similar to the UN/ECE text.
- b = applied at present**
- c = to be applied in future**
- n = similar national standard applied**
- q = qualified acceptance** (comments concerning acceptance to be noted)
- n = not accepted**
