**UPDATE ON THE HARMONIZATION
OF TECHNICAL REGULATIONS
WITHIN THE CUSTOMS UNION**

Member states of Eurasian Economic Community

CES

Member states of Customs Union

High level of
integration

provides for
common customs
territory

PRINCIPLES OF TECHNICAL REGULATION

CES

Four economic freedoms

Free movement of

PRODUCTS

It is impossible to establish a complete economic union without solving issues of technical regulation

Products conformity to mandatory requirements

Free movement of products

SERVICES

CAPITAL

PERSONS

PRINCIPLES OF TECHNICAL REGULATION

CES

Common system of regulation, common technical legislation

Common mandatory requirements

Common standards on the basis of international requirements

Single mechanism of conformity attestation against mandatory requirements

Common mark for products circulation in the market

Common principles and regulations for accreditation

liability

market surveillance

control of products from third countries

Common principles and regulations for information on dangerous products

**FREE
MOVEMENT OF
PRODUCTS**

TECHNICAL REGULATION

CES

REGULATED AREA

requirements to the objects of technical regulation
mandatory for application and implementation

HARMONIZED
ON CES LEVEL

HARMONIZED
ON NATIONAL LEVEL

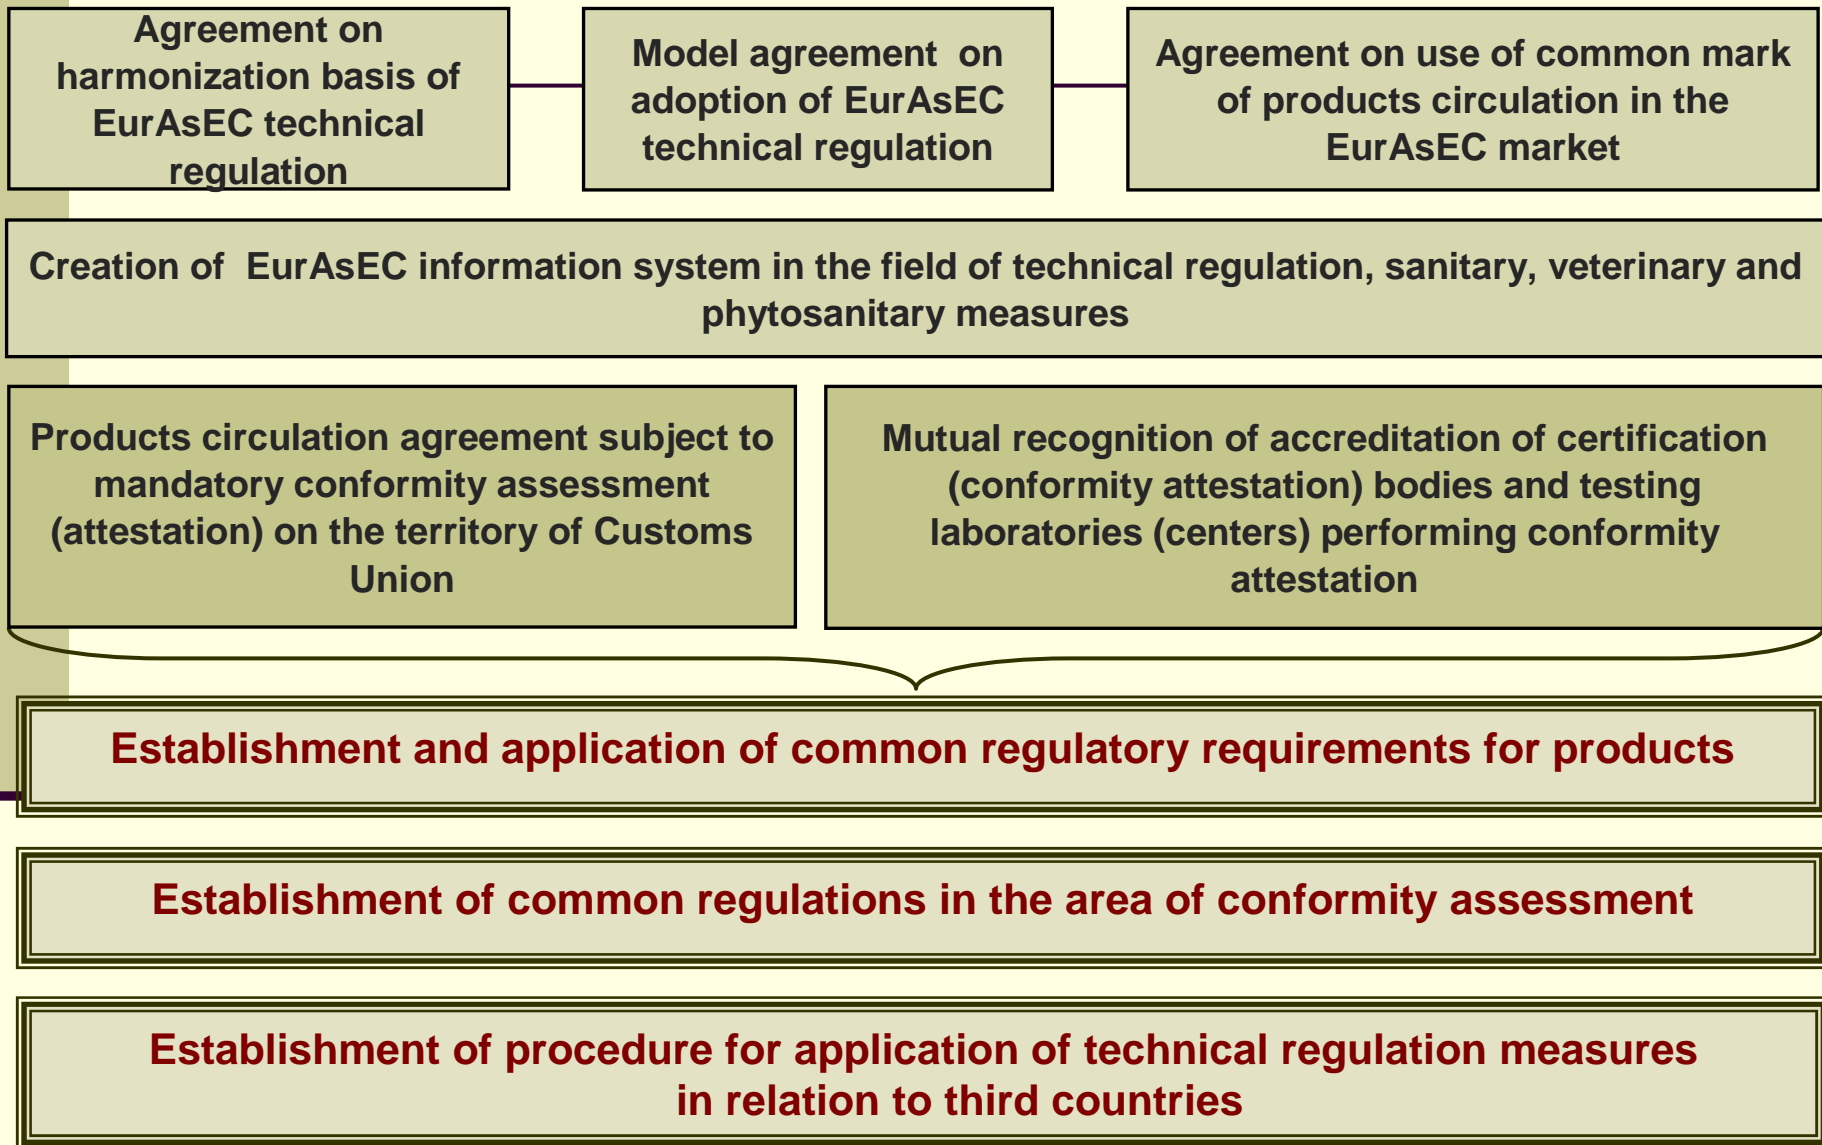

- **HORIZONTAL LEVEL OF HARMONIZATION**

LEGISLATION ON COMMON SAFETY
OF PRODUCTS AND MARKET SURVEILLANCE

- **VERTICAL LEVEL OF HARMONIZATION**

COMMON TECHNICAL REGULATIONS

SYSTEMATIC POLICY AGREEMENT IN THE FIELD OF TECHNICAL REGULATION, SANITARY AND PHYTOSANITARY MEASURES OF EurAsEC

TECHNICAL REGULATION

CES

CONDITIONS FOR PRODUCTS PLACING IN THE MARKET

REGULATION

*Placing in the market –
without additional procedures*

I. Conformance to the common technical regulations

Completion of procedures for
conformity assessment (attestation)

TR EurAsEC

- adopted by international agreement
- subject to obligatory putting into force in all countries

II. Conformance to national legislation

Principle of mutual
recognition of products

- there should be no obstacles for products placing in the CES market
- should not create technical barriers
- should not be the means for discrimination

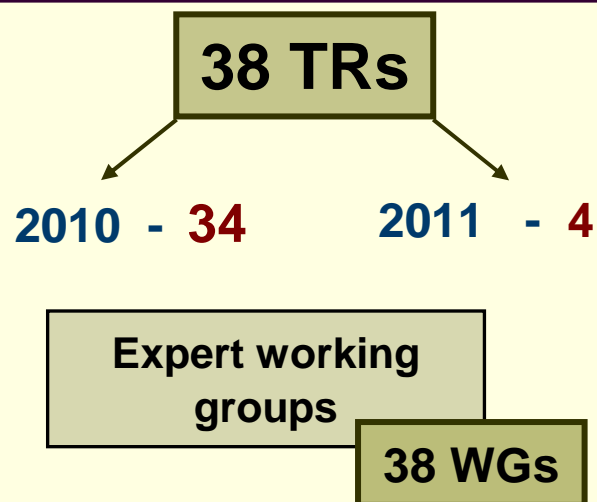

**tendency to
harmonization**

Information of CTR

**Adoption of
measures for ban**

temporary restricting
measures
if justified

ADJUSTED SCHEDULE FOR DEVELOPMENT OF FIRST-PRIORITY CES TECHNICAL REGULATIONS

Russia **28** 2010 - 26
2011 - 2

Belarus **5** 2010 - 5

Kazakhstan **3** 2010 - 3

Kyrgyzstan **2** 2011 - 2

Started working

34 WGs

On public discussion

11 TRs

- Draft EurAsEC TRs are under examination by the relevant group experts
- Working groups meetings

Development of 25 TRs is going on

«Safety of low voltage equipment», «Electromagnetic compatibility requirements», «On safety of machinery and equipment», «On safety of equipment working in explosive atmospheres», «Safety of lifts», «Safety of toys», «On safety of products for children and teenagers», «Safety of package», «On safety of grains», «Fat-and-oil products», «Fruits and vegetables juice products»

DEVELOPMENT OF EurAsEC TECHNICAL REGULATIONS OF TOP-PRIORITY

On the base of New approach EU Directives

- Low voltage equipment
- Electromagnetic compatibility
- Communications facility
- Machinery
- Lifts
- Pressure vessels
- Equipment for use in potentially explosive atmospheres
- Appliances burning gaseous fuels
- Medical devices
- Construction products
- Toys
- Personal protective equipment

DEVELOPMENT OF EurAsEC TECHNICAL REGULATIONS OF TOP-PRIORITY

Horizontal technical regulations

On food products safety

Information about food products

**Milk and
milk products**

**Fat-and-oil
products**

**Fruits and vegetables
juice products**

TECHNICAL REGULATION

CES

COMMON INTERGOVERNMENTAL STANDARDS

are applied on voluntary basis

Conformity attestation of products to requirements of common technical regulations

Principles:

- openness and publicity of development processes
- acceptance based on consensus
- availability of standards, information about the procedure of their development, acceptance (approval) and publication
- application of international and regional standards as basis
- impermissibility of adoption (approval) of standards conflicting with common technical regulations

OBLIGATIONS OF PARTIES

As opposed to EurAsEC provisions

- Implementation at the national level

As identical national (governmental) standards

- Cancellation of all conflicting national (governmental) standards

- Notification about the beginning of the development of national (governmental) standards and termination of their development

If there is decision on the development of common intergovernmental standards

TECHNICAL REGULATION

CES

COMMON INTERGOVERNMENTAL STANDARDS

As opposed to EurAsEC provisions:

- make changes in the agreement within CIS
- set rules of application of intergovernmental standards (GOST) as common intergovernmental standards
- create appropriate structure coordinating issues on development, maintenance and updating of common intergovernmental standards

**Commission of Customs
Union**

MANDATE

for development of common intergovernmental standards

Annual CES programs of
standardization

Mechanism of
programs financing

**Authorized organizations
for standardization**

**Intergovernmental technical committees
on standardization**

created within CES

National standardization bodies

TECHNICAL REGULATION

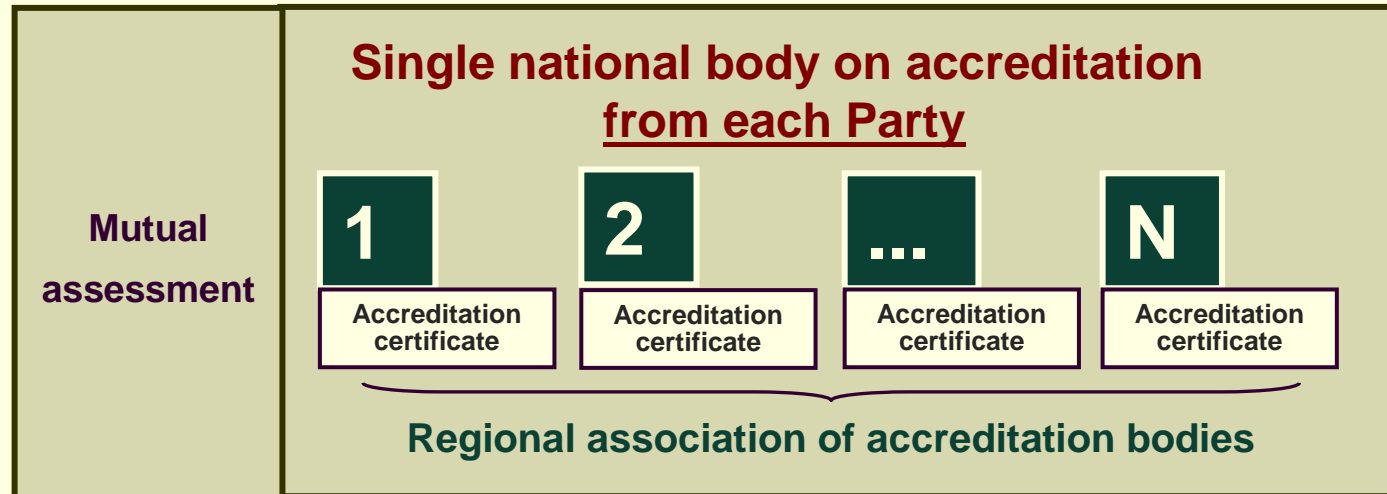

CES

ACCREDITATION

Common principles and rules in the regulated area

HARMONIZED AT
CES LEVEL

HARMONIZED AT
NATIONAL LEVEL

**COMMON
RULES**, based on
requirements of
international
standards

Mutual recognition of the results of works in the field of conformity assessment

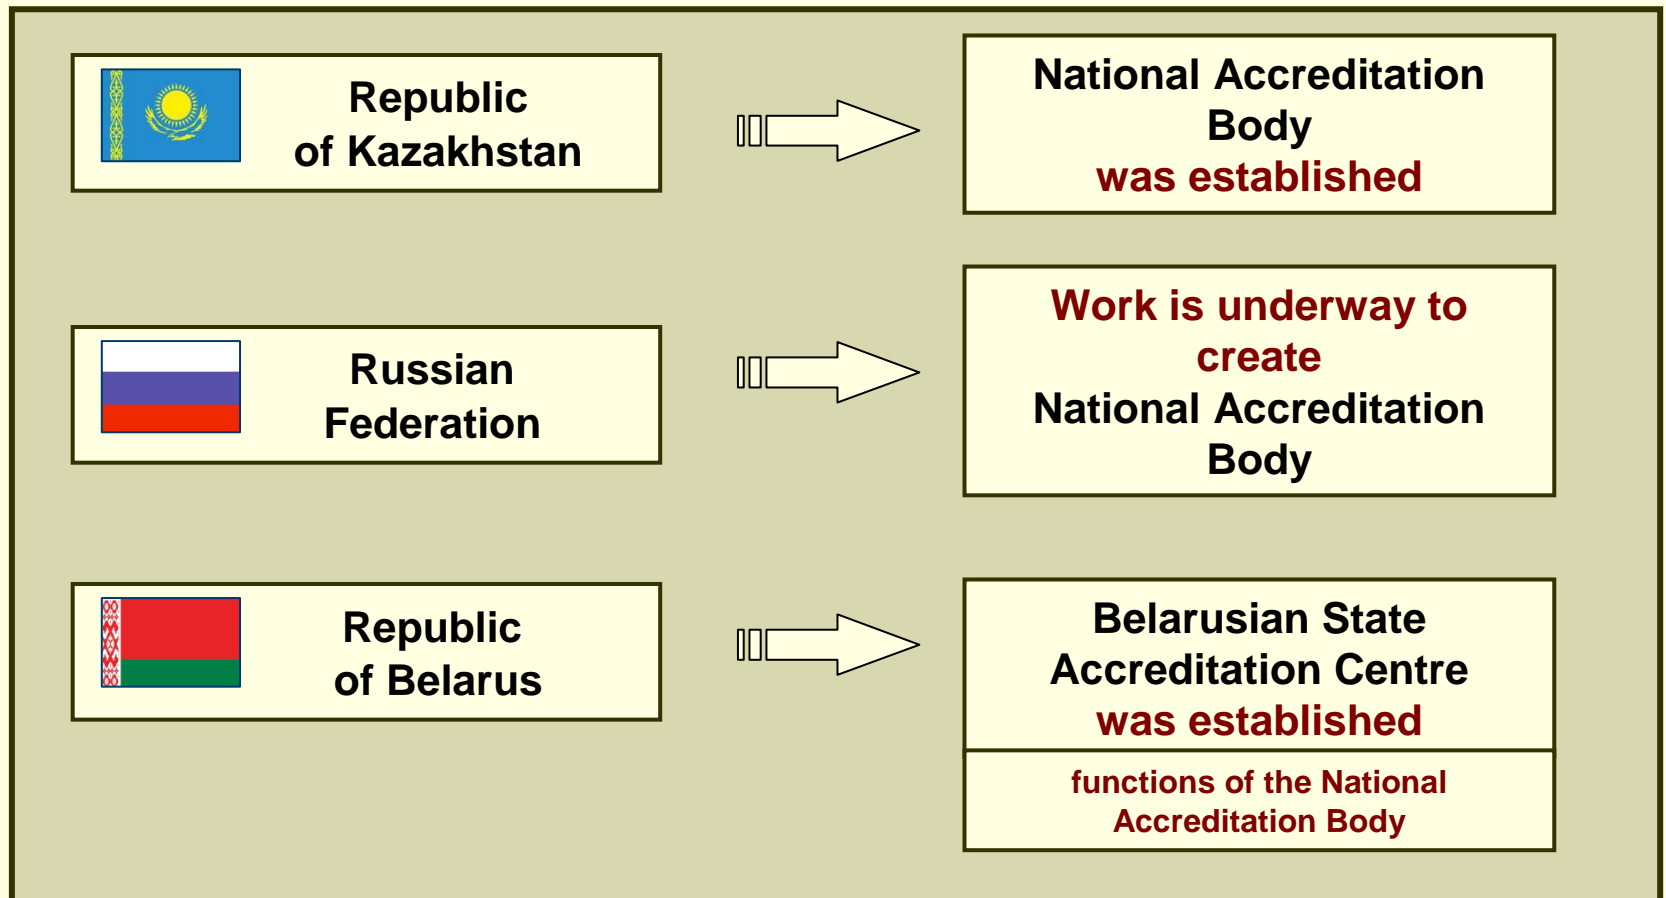

conducted by

certification bodies

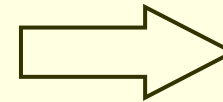

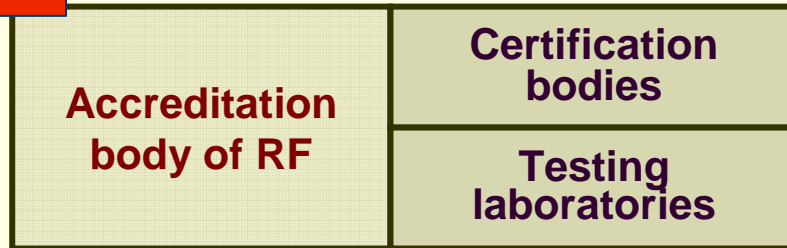

test laboratories

at international level

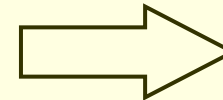

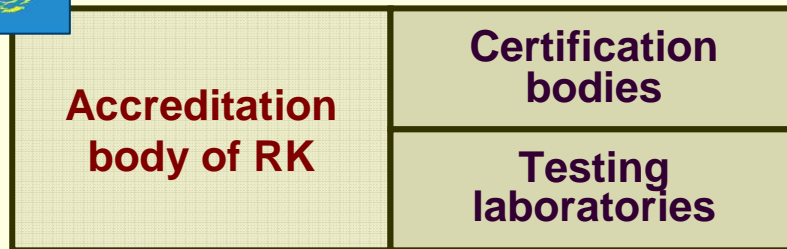

ACCREDITATION

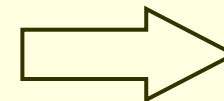

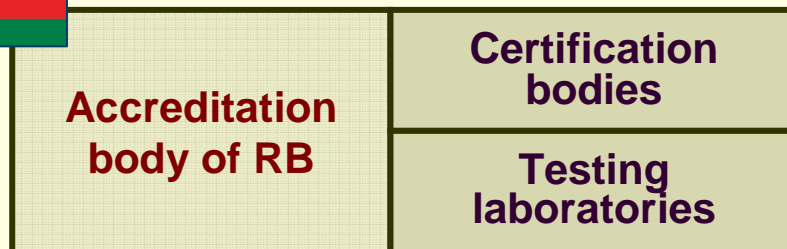

AGREEMENT on mutual recognition of certification bodies and testing laboratories accreditation

**COMMON REGISTER
OF CUSTOMS UNION**

**CERTIFICATION
BODIES AND
TESTING
LABORATORIES**

**MUTUAL
RECOGNITION OF
TESTING REPORTS**

TECHNICAL REGULATION

CES

ACCESS TO MARKET, CONFORMITY ASSESSMENT

- Conformity to obligatory requirements
 - Completion of the conformity assessment procedures to that requirements in one of the CES States.

Placement of products in the market

Common system of conformity attestation to the obligatory requirements

Forms, rules and procedures for conformity assessment

Common technical regulation(s)

COMMON INTERSTATE STANDARDS may be used for conformity assessment (attestation) of products to the requirements of common technical regulations *on a voluntary basis*

AGREEMENT on circulation of products, subject to mandatory conformity assessment (attestation), on customs territory of the Customs Union

**Specify order of import on customs territory
and movement between territories of Member states for products,
subject to mandatory conformity attestation**

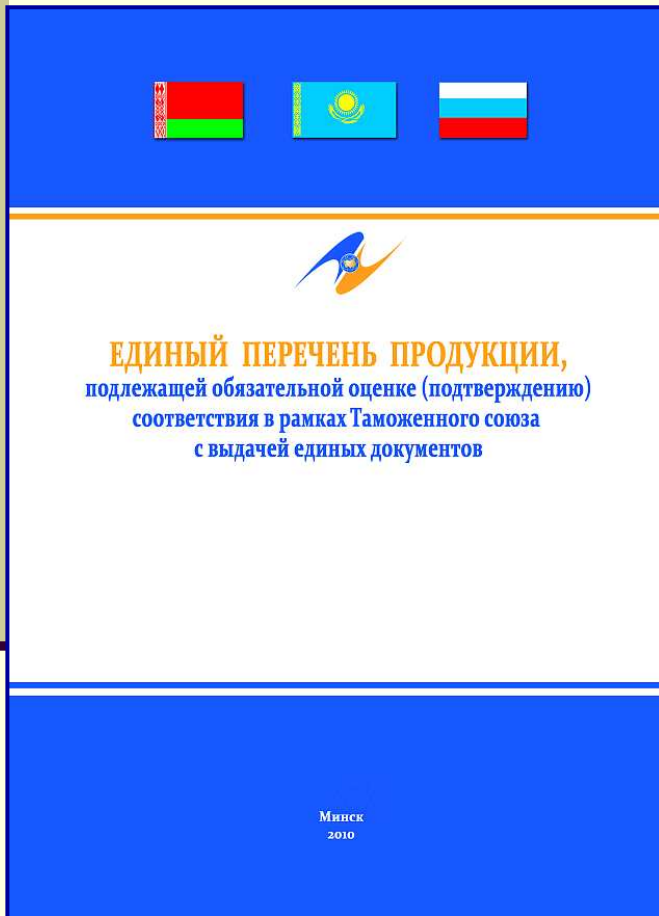

**Products are allowed for circulation on the territory of the Customs Union
Member state in compliance with the legislation of this state and the
Agreement on circulation of products.**

-
- is valid before entering into force of EurAsEC technical regulations
 - ensures fulfillment of technical regulation of the country of destination
 - ensures mutual recognition of testing reports

An agreement on circulation of products subject to obligatory conformity assessment (attestation) in the Customs Union territory

- **Unified register of products subject to obligatory conformity assessment (attestation) within Customs Union with issuing of unified documents**
- **Unified form of certificate of conformity**
- **Unified form of declaration of conformity**
- **Unified register of issued certificates of conformity and registered declarations of conformity, arranged in unified form**
- **Unified register of accredited certification bodies, test laboratories (centers)**

CONFORMITY ATTESTATION IN CUSTOMS UNION

- types of products, subject to the obligatory conformity attestation
- obligatory requirements (GOST, GOST R, STB, ST RK, CES U.N.O. rules)
- forms of the obligatory conformity attestation (certification and declaration)
- common certificates, common declarations of compliance

CONFORMITY ATTESTATION IN CUSTOMS UNION

- Unified Register of certification bodies and testing laboratories (centers) of the Customs Union
- Unified Register of issued certificates of conformity and registered declarations of compliance, arranged on common form

Circulation of products until 1 July 2010

**Manufacturer, supplier, importer
must have documents of three countries**

CIRCULATION OF PRODUCTS FROM 1 JULY 2010 TILL PUTTING INTO FORCE OF COMMON TECHNICAL REGULATIONS

- National technical regulations
- National lists of products for mandatory conformity attestation
- Unified register

Import

- Common certificate
- Certificate /declaration of country of destination

Mutual deliveries

- Common certificate/declaration
- Certificate /declaration of country of destination

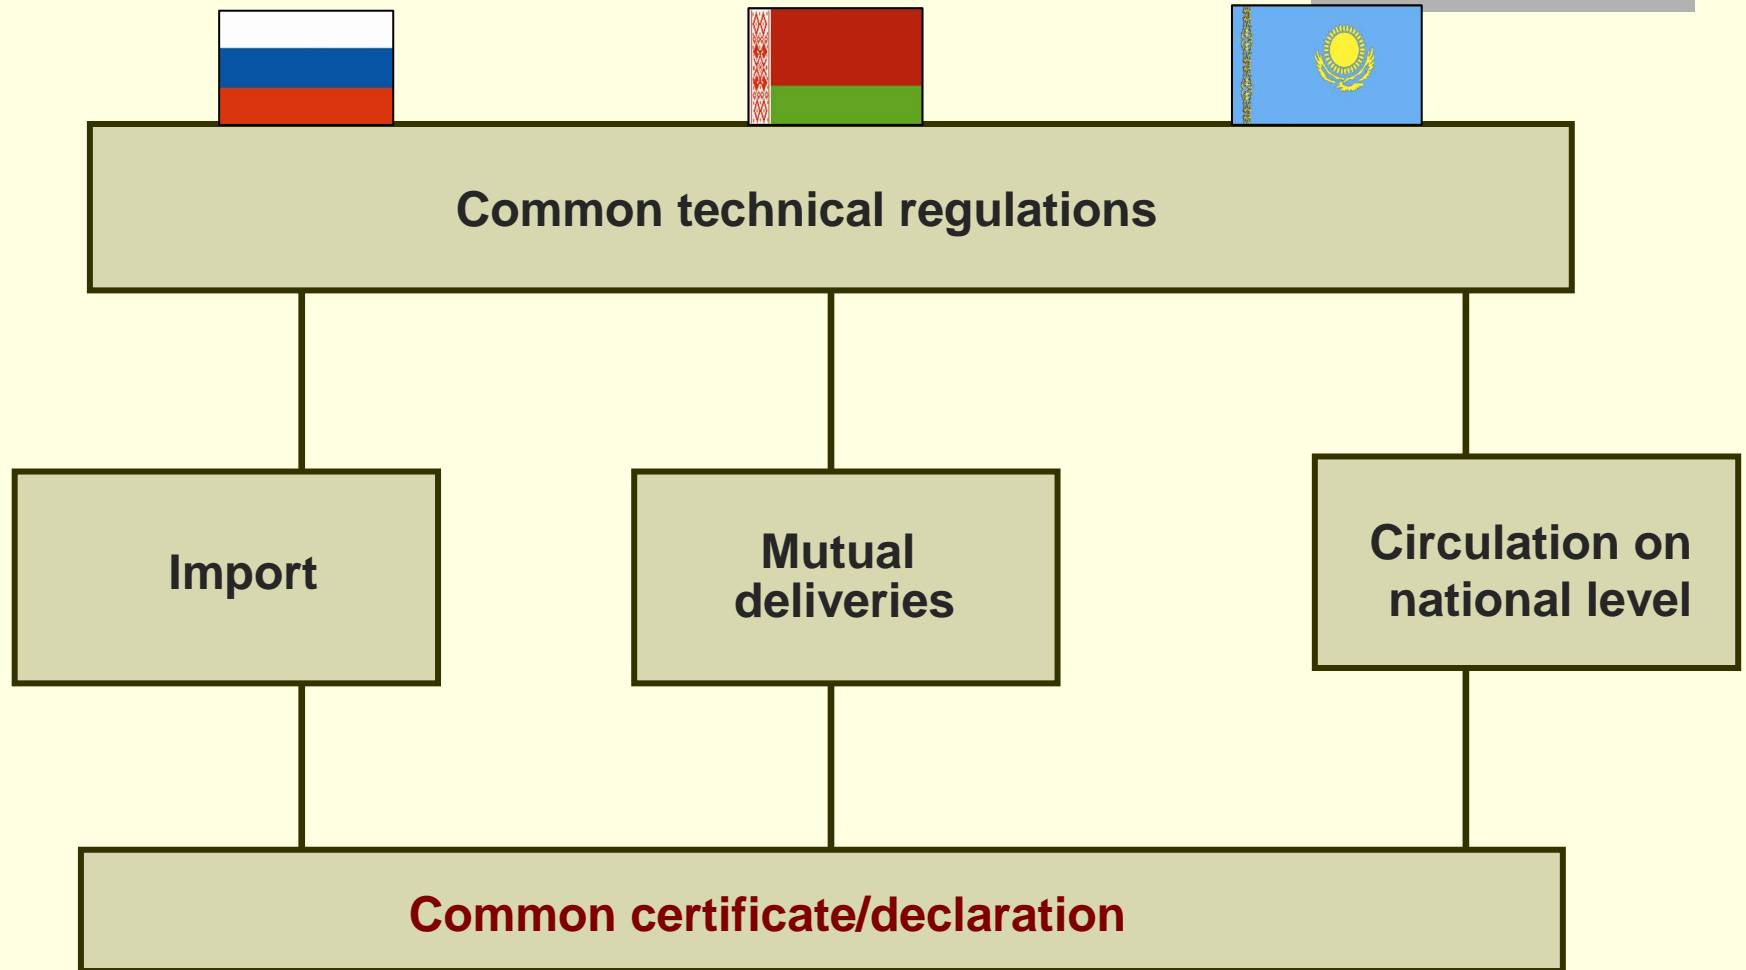

Circulation on national level

- Common certificate/declaration
- National certificate/declaration

Manufacturer has a right to accept declarations: national, of country of destination, common

Supplier has a right to accept national declarations

Circulation of products after putting into force of common technical regulations

COMMON MARK OF PRODUCTS CIRCULATION IN THE MARKET OF EurAsEC MEMBER STATES

**Products conformity to the requirements
of EurAsEC Technical Regulations**

**Use of common mark of products circulation in the market of
EurAsEC Member states**

Output of products for circulation in EurAsEC market

AGREEMENT
on use of common mark of products circulation in the market of Member
states of Eurasian Economic Community

TECHNICAL REGULATION

CES

LIABILITY
