Item 6 of the provisional agenda
International regulatory cooperation

Progress report on the Sectoral Initiative on Explosive Environments Equipment

Note by the secretariat

Corrigendum

Paragraph 13 should read as follows:

13. It brought together more than 100 experts, with the objective of making safer the industries in which explosions could occur, and of facilitating trade in related products and equipment. At the Workshop, the Coordinator of the Sectoral Initiative and the WP. 6 secretariat presented the Common Regulatory Framework. The comprehensive approach of the international model for technical harmonization (UNECE Recommendation L) was discussed as the basis for global rules for this important sector.
