OBJECTIVES OA RSPP’S COMMITTEE FOR TECHNICAL REGULATION, STANDARDIZATION AND CONFORMITY ASSESSMENT

The Committee was established in July 2004.

In the work of the Committee of the RSPP are involved more than 2,000 experts from all industries.

The main objectives:

- Involvement of industry in the technical regulation reform
- Coordination of Industrialists and Entrepreneurs efforts in the reform of technical regulation and standardization
- Implementation of cooperation with industry associations, government bodies
- Organization of International Cooperation on technical regulation

Pumpyanskiy D.A.
Vice president of RSPP, Head of the Committee, Chairman of the Board of Directors of "TMK"
Reference to Standards - ECE/TRADE/418
Published: August 2014

This bilingual (English/Russian) publication (ECE/TRADE/418) presents the results of the International Conference on “Standards and Regulatory Systems”, held in Geneva on 19 November 2013 and organized by UNECE in cooperation with the Russian Union of Industrialists and Entrepreneurs.

В данной публикации представлены результаты организованной ЕЭК ООН в сотрудничестве с Российским союзом промышленников и предпринимателей Международной конференции «Стандарты и системы регулирования”, состоявшейся в Женеве 19 ноября 2013 года.
Conclusion of EU experts on the draft law “On standardization in the Russian Federation”:

1. The draft law has been drawn up in accordance with the latest world's best legislative practice.

2. Contains provisions which could serve as an example for other legislation.

3. Fully complies with the WTO requirements.
INTERACTION OF INTERNATIONAL AND NATIONAL ORGANIZATIONS FOR STANDARDIZATION

RSPP Committee for technical regulation, standardization and conformity assessment actively engages with international and national standardization organizations.
February 18 – 20, 2015 in Moscow, in RSPP was held the meeting of CEN/TC 12 and Steering Committee ISO/TC 67 with wide participation of Russian companies.
The representatives of Russian industry discussed with ISO President Dr. Zhan Xiaogan, IEC President Dr. Junji Nomura, CEN/CENELEC Vice-president Dr. Bernhard Thies issues related with participation of Russian experts in international standardization.
Update on ISO/TMB TF - Challenges in the oil and gas sector

- TF established in February 2015
- 5 WebEx meetings held
- Very aware of complex issues and difficulties faced by TC 67
- Complexities mean that any proposed derogations need to be agreed with TMB TF / TMB
- Currently discussing a number of options and trying to separate out the issues
- Current situation:
  - Current ISO procedures must be supported and reinforced until such time that there is TMB agreement on any new standards development policies
  - ISO working groups cannot exclude a particular country’s expert(s) who are duly P-members of the parent committee, and wish to contribute to the ISO working group work

September 15, 2015 the issue of sanctions was discussed at ISO TMB meeting
THANK YOU FOR YOUR ATTENTION!
