Dear Ms. MOLNAR,

In accordance with the new Customs Communique, with a view to facilitate and accelerate the customs procedures and to ensure the risk analysis earlier and more effectively, the preliminary declaration mechanism within the scope of TIR System will be compulsory for all the hauliers before the arrival of the vehicle into the Turkish Customs Territory as of April, 25th 2017.

Therefore, pre-declaration should be submitted in order to facilitate and accelerate the customs procedures and to conduct risk analysis more efficiently.

The TIR Carnet Holder will be able submit pre-declaration through the Pre-Declaration System (TIRCUS), newly put into use by the Ministry of Customs and Trade of Turkey.

For submitting pre-declaration, the TIR Carnet Holder may also be able to use the TIR-EPD System of the International Road Transport Association (IRU).

The details and guidelines of TIRCUS will be shared later on.

I invite you to bring this matter to the attention of concerned parties with a view to preventing any unintended consequences.

Thank you for your cooperation.

Sincerely yours,

Subject: TIR Pre-Declaration

Eva MOLNAR
Director, Transport Division
UN Economic Commission for Europe
Palais des Nations, CH-1211 Geneva 10,
Geneva, SWITZERLAND
Fax: +41 (0) 22 917 00 39 / 89

Dear Ms. MOLNAR,

Referring to my letter dated 27.02.2017, I would like to share the details as regards the compulsory implementation of the preliminary declaration mechanism within the scope of TIR System as of April, 25th 2017.

Since there are two options to submit the advance declaration before the arrival of the vehicle (including Ro-Ro transports) into the Turkish Customs Territory, the TIR Carnet Holder may either choose TIR-EPD System or the Pre-Declaration System (TIRCUS), newly put into use by the Ministry of Customs and Trade of Turkey.

In line with the TIRCUS Programme, we have revealed the "User Manual" including the FAQ, attached. Furthermore, https://uygulama.gtb.gov.tr/TIRCUS is the web address for the application.

Thus, the foreign transport operators owing no agencies in Turkey, will also be able to submit the pre-declaration via TIRCUS Programme as well as the national customs system, BILGE, by taking an identification number allocated to foreigners. By doing so, they will be able to make it after acquiring username and password on their behalf.

On the other hand, if the pre-declaration is submitted after the arrival of the vehicle into the Turkish Customs Territory, the transport operator and the goods carried shall be separately examined within the framework of the risk criteria.
I invite you to bring this matter to the attention of the concerned parties and reveal the "User Manual" of the TIRCUS with a view to smooth functioning of the TIR transactions.

Thank you for your cooperation.

Sincerely yours,

Hasan KOSEOGLU
