

Mr Olivier Kervella  
Head of Section, United Nations  
Economic Commission of Europe  
Transport Division  
DG and Special Cargoes Section  
Palais des Nations  
1211 Geneva 10  
SWITZERLAND

Date 14 December 2010

Dear Mr Kervella

**Multilateral Special Agreement M229: Vibration Testing of Intermediate Bulk Containers (IBCs)**

The United Kingdom has initiated Multilateral Agreement M229 (attached). This Multilateral Agreement would grant derogation for the requirement of the vibration test in accordance with 6.5.6.13 of ADR, for IBCs used for liquids with a gross mass exceeding 1500 kilograms when filled for test.

The UK wishes to initiate this agreement due to many countries not having the required testing facilities to undertake this test.

Yours sincerely

Rose Nwoko  
Dangerous Goods Division  
Department for Transport  
United Kingdom
