Date 6th May 2011

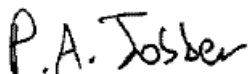

Dear Mr Kervella

Multilateral Special Agreement M237: The carriage of different gases of Class 2 in US Department of Transportation cylinders in relation to 1.1.4.2

The United Kingdom has initiated Multilateral Agreement M237 (attached).

This broadly continues the derogation contained in M180, with some amendments. This is intended to allow the import of substances contained in US DOT cylinders, without allowing their general use with the ADR area. The expiry date would be 1st June 2016.

Yours sincerely

Paul Jobber
Dangerous Goods Division
Department for Transport
United Kingdom
