SAFETY IN ROAD TUNNELS

Comments on INF.3

Submitted by the Government of Austria

The Government of Austria would like to suggest the following changes to the proposal prepared by the secretariat in INF 3:

- 1) replace "prohibited" or "not allowed" everywhere by the broader term "restricted" (concerns 1.9.6, 2.4.1 and 2.4.2.).
 - 2) in 8.6.2.2 reference to 1.1.3 as a whole should be made not only to 1.1.3.6.
 - 3) the texts in 8.6.2.3 and 8.6.2.4 as rules for assignment should figure at the end of 2.4.4. If necessary a reference could be made by a NOTE in 8.6.2.
 - 4) It is necessary to examine to which extent the assignment rule now figuring in 8.6.2.4 needs to be expanded in order to take care of the subdivisions of groups B, C and D. We did not yet have time to do so.
