INLAND TRANSPORT COMMITTEE

World Forum for Harmonization of Vehicle Regulations (WP.29)

Working Party on Passive Safety (GRSP)  
(Thirty-fifth session, 3-7 May 2004,  
agenda item B.1.4.)

PROPOSAL FOR DRAFT AMENDMENTS TO REGULATION No. 44  
(Child restraints)

Transmitted by the expert from the European Association of Automotive Suppliers (CLEPA)

Note: The text reproduced below was prepared by the expert from CLEPA in order to prevent the use of a Y-shaped belt in front facing child restraints systems. It is based on informal document No. GRSP-34-27 distributed at the thirty-fourth session (TRANS/WP.29/GRSP/34, para. 25).

---

Note: This document is distributed to the Experts on Passive Safety only.

**A. PROPOSAL**

Paragraph 6.2.4.1., amend to read:

"6.2.4.1. Y-shaped belts may only be used in rearward facing **and lateral facing** child restraint systems (**carrycots**). **Y-shaped belts may also be used in addition to a shield in front facing child restraint systems.**"

**B. JUSTIFICATION**

Paragraph 6.2.4.1. in its current version states that the Y-shaped belt may only be used in rearward facing CRS. The purpose of this paragraph is to prevent the usage of a Y-shaped belt in front facing CRS. However, it does not permit the usage of a Y-shaped belt for lateral facing CRS. In front facing CRS, a shield may be used alone, the possibility of using a Y-belt in addition to this shield giving the opportunity to improve this type of child restraint.
