<i>Minimum specified</i> Speed (forward)	(paragraph X-6);
stopping capacity	(paragraph X-7);
capacity for going astern	(paragraph X-8);
capacity for changing course	(paragraph X-9);
turning capacity	(paragraph X-10)

X-2.2 **The competent authority on the inspection of vessels shall enter into the Ship's Certificate under number 52 which of the alternatives as set out in Appendix ...has been applied for the navigation tests.**

X-2.3 *The ~~inspection body~~ Basin administration may dispense with all or part of the tests where compliance with the navigability and manoeuvrability requirements is proven in another manner.*

X-3.1 *The navigation tests referred to in paragraph [X-2] shall be carried out on areas of inland waterways that have been designated by a the competent authority of the Basin administration.*

X-3.2 *Those test areas shall be situated on a stretch of running or still water that is if possible straight, at least 2 km long and sufficiently wide and is equipped with highly-distinctive marks for determining the position of the vessel.*
