Item 4 of the provisional agenda

Electric Storage Systems

Australian comments on document ST/SG/AC/.10/C.3/2009/43 from KiloFarad International
(KFI)

Background

1. Australian regulators support in principle the proposal to create a new entry in the dangerous goods list for ULTRACAPACITORS, UNCHARGED.
2. However, we believe that it is also necessary to include the term 'kilofarads' in the accepted units of measurement in Section 1.2.2 of the Model Regulations.

Proposal:

3. The proposal is supported however Australia would recommend that in addition to the proposed change that the term 'kilofarads' be added to the accepted units of measurement in Section 1.2.2 of the Model Regulations.
