Executive Committee of the 1998 Global Agreement

**PROPOSAL TO DEVELOP A NEW GLOBAL TECHNICAL REGULATION ON  
WORLDWIDE HARMONIZED LIGHT VEHICLE TEST PROCEDURES**

Technical sponsors the European Union, Japan and the United States of America \*/

Addendum

The text reproduced below introduces editorial improvements and clarifications to the text that was adopted by the Executive Committee (AC.3) of the 1998 Global Agreement at its twenty-seventh session, in November 2009 (ECE/TRANS/WP.29/1079, para. 112). The additions to document ECE/TRANS/WP.29/AC.3/26 are marked in bold and the deletions in strikethrough characters. This document shall be appended to the global technical regulation in conformity with paragraph 6.2.7. of the 1998 Agreement.

---

\*/ In accordance with paragraph 6.2.7. of the 1998 Agreement (ECE/TRANS/180), the proposals to develop global technical regulations or their amendments shall be appended to them in the Global Registry. The present document is submitted in conformity with that mandate.

Paragraph 9., amend to read:

"9. At its June 2009 session, AC.3 decided to focus the work on the development of the test cycle and the test procedures, and to keep the development test procedures for Off-Cycle Emission (OCE) and Mobile Air Conditioning (MAC) **separate from** ~~in~~ Phase 1. Considering the European Union (EU) decision to apply OCE and MAC procedures by 2014, it was also agreed that GRPE work on developing test procedures for OCE and MAC in an open way **and in parallel with Phase 1**, so that after completion of the technical work those procedures might be incorporated into the gtr, or in a 1958 Agreement Regulation, or in a EU legal text."

Paragraph 10., amend to read:

"10. Phases for the development of the gtr on WLTP:

(a) Phase 1 work

- (i) Develop the worldwide harmonized light duty ~~test procedure~~ **drive cycle**;
- (ii) Develop the worldwide harmonized light duty test procedure;**
- (iii) ~~Develop~~ **Open communication regarding** OCE test procedure; 1/
- (iv) ~~Develop~~ **Open communication regarding** MAC test procedure. 1/

(b) Phase 2 work

- (i) Low ambient temperature ..."

Paragraph 16., amend to read:

"16. The test procedure development is a work element which will be executed by the DTP group. **Cooperating parties, such as** the International Organization for Standardization (ISO), **could** ~~should~~ be **consulted** ~~mandated~~ with **regard to** the development of a standard for the test procedure. ~~in consultation with GRPE.~~ In a preliminary step, ..."
