

INTERNATIONAL CERTIFICATE (INTERNATIONAL CARD) CONCERNING THE
COMPETENCE OF PLEASURE CRAFT OPERATORS

Resolution No. 14, revised

(adopted by the Working Party on Inland Water Transport
on 29 January 1979)

The Working Party on Inland Water Transport,

Noting the desirability of measures to ensure the safety of navigation,
protect the environment and facilitate waterborne tourism,

Noting the effectiveness of measures already taken by Governments and
qualified bodies associated in international federations to regulate the issue
of documents for pleasure craft operators bound for the waters of foreign
countries,

Considering that there is a need to strengthen this action by the
introduction of a European Document,

1. Recommends the issue on request:

- of an international certificate concerning the competence of
pleasure craft operators and issued by Governments or bodies
approved by them to pleasure craft operators going abroad;
- of an international card concerning the competence of
pleasure craft operators and made out by the qualified bodies
of countries where the Government does not itself issue the
international certificates to pleasure craft operators going
abroad.

The international certificate (international card) concerning the
competence of pleasure craft operators should as far as possible conform to
the models in annexes I and II to this resolution, and should be made out in
the official language or languages of the country, the title of the document
being given, if possible, in two of the three languages, English, French and
Russian.

2. Requests Governments to inform the Executive Secretary of the
Economic Commission for Europe whether they accept this resolution and its
amended annexes and, if so:

- (a) to recognize in their territory the documents issued by the
Governments or bodies referred to above,
- (b) to communicate to the secretariat, where appropriate:
 - the restrictions applicable;

- the conditions for the issue of the international certificate (international card);
- the name of the authority or bodies qualified to issue the documents referred to in paragraph 1 above and the relationship of those bodies to the Government.

3. Requests the Executive Secretary of the Economic Commission for Europe to place the application of this resolution on the agenda of the Working Party on Inland Water Transport every year, to keep the list of countries applying the resolution up to date for the Working Party's sessions and to supplement or amend the annexes hereto, as necessary.
