Terms of References (ToR) of IG GTR-PH2 Task Force regarding Review and Update Certification Corridors (TF-RUCC)

28 Nov. 2011
Japan

Background

- Flex-GTR has three component level and two assembly level certification tests.
- Certification corridors for those tests were developed on the basis of Flex-TEG discussions.
- Before accepting those corridors by IG GTR-PH2, detailed reviews and updates if needed by task force group are required as requested by the IG GTR-PH2 at its constitutional meeting.
