

Proposal for Correction to ECE/TRANS/WP.29/GRE/2013/49

The text reproduced below was prepared by the expert from The International Automotive Lighting and Light Signalling Expert Group (GTB) to correct editorial mistakes that have been identified since the submission of the formal document. The corrections to the text of the original proposal are identified by comments in the right-hand column.

I. Proposal

Insert a new paragraph 2.10., to read:

"2.10. Fluorescent retro-reflecting material

Means a material with retro-reflecting properties which, when excited by daylight, exhibits the phenomenon of photo-luminescence ceasing rather shortly after excitation."

Comment [GTB1]: The word "rather" to be deleted

Annex 3, figure 1., amend to read:

"Figure 1

Shape and dimensions of the advance-warning triangle of type 1 and of the support

Comment [GTB2]: This figure replaces the figure in GRE/2013/49 and is based upon a PPT file that is provided separately to the secretariat to allow editing for translation.

Annex 3, Insert a new Figure 2., to read

"Figure 2

Shape and dimensions of the advance-warning triangle of type 2 and of the support

Comment [GTB3]: This figure replaces the figure in GRE/2013/49 and is based upon a PPT file that is provided separately to the secretariat to allow editing for translation.
