A generic model for 'Safe System'?

Areas to be considered :

- **Infrastructure 'safe by design'**
- **Behaviour management**
- **Legislation & resources**

'Key elements' to be considered:

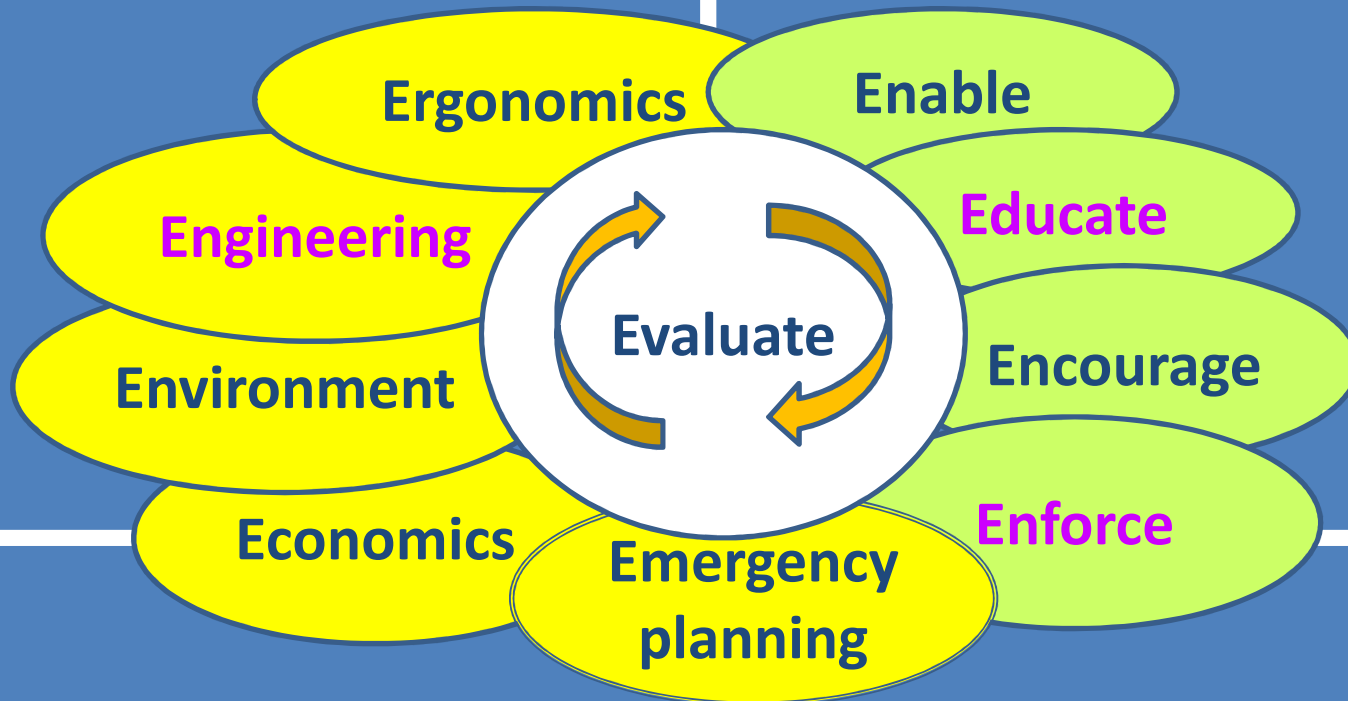

- *environment, engineering, ergonomics*
- *enable, educate, encourage, enforce*
- *evaluate, emergency planning, economics*

10 Elements of a Safe System approach

Level Crossing - Safe System

**Design & Safety
management process**

**Behaviour
management process**

Legislation & national resources
