## Regional Road Safety Capacity Building Workshop

**BW Hotel M, Bulevar Oslobođenja 56,  
Belgrade, Republic of Serbia  
15-16 October 2014**

Presentations and discussion will focus on activities such as intra-governmental cooperation, functions of a lead agency or other coordinating bodies, developing a national strategy, setting realistic and long term targets, funding sources and data support systems for monitoring and evaluation. In particular, the following will be discussed:

- Institutional structures for management of road safety – which organisations are responsible for road safety, sectoral and hierarchical division of labour
- Different forms of inter-agency coordination (lead agency, inter-ministerial coordinating committee; coordination between the national; regional and local levels; involvement of the civil society and public); their potential benefits, and risks
- Road safety funding and its potential sources (traditional and innovative funding mechanisms)
